

**Resolution C 18/2008**

**Classification of countries and territories for terminal dues and Quality of Service Fund (QSF) purposes**

Congress,

Having adopted  
the provisions of the Union's new terminal dues system,

Considering  
that Bucharest Congress resolution C 13/2004 instructed the Council of Administration to establish an acceptable system for the classification of countries,

Having observed  
that the need for preferential terminal dues rates decreases with the country-specific potential to self-finance postal development and increases with the country-specific difficulties in serving the postal territory and with the postal service level provided,

Noting  
that the gross national income per capita reflects the potential to self-finance postal development and that the average costs per letter reflect the difficulties in serving the postal territory,

Bearing in mind  
that the special needs of small countries/territories, i.e. small island developing countries/territories and land-locked countries/territories in similar circumstances, have to be fully taken into consideration,

Recognizing  
the special needs of least developed countries for preferential treatment,

*Decides*

- to endorse the methodology for the classification of countries in five groups, as described in CONGRÈS-Doc 19.Rev 1.Annexes 1 and 2, subject to the following adjustments:
  - the maximum value of the postal development indicator (PDI) in Group 5, used for purposes of classification in Group 4, should not include the highest PDI value of countries found to be eligible for graduation from the list of least developed countries (LDCs) prepared by the United Nations Economic and Social Council (UNECOSOC);

- paragraph 24 in CONGRÈS–Doc 19.Rev 1. Annex 2 should be deleted so that countries are not assigned to a different group solely on the basis of not having provided tariff data for purposes of classification;
- to adopt a four-year classification cycle as of 2010;
- on the classification of countries in five groups for terminal dues and quality of service fund purposes, as shown in the lists in Annex 1. The provisions concerning terminal dues rates and levels of contribution and access to QSF funds are specified in the Convention,

*Authorizes*

the Council of Administration to decide on the temporary downward reclassification of countries due to war or extremely severe economic crisis.
