Subject: Television broadcasts from a balloon

Dear Sir,

The Secretary-General of the ITU has recently received a letter (copy attached) from the Cuban Ambassador to the United Nations in Geneva concerning the United States' plans to broadcast television to Cuba from a tethered balloon. In that letter, the Secretary-General was requested to bring this matter to the attention of the Board.

The Board will be formally considering this matter in the near future, but before so doing, it would appreciate receiving some additional technical information to that contained in the letter from the Cuban Ambassador, together with any comments that you might wish to make.

Yours faithfully,

G.C. Brooks
Chairman
