*(CT:VISA-696; 02-09-2005-2005)  
(Office of Origin: CA/VO/L/R)*

## **9 FAM 401 TIMING**

*(CT:VISA-696; 02-09-2005)*

Nonimmigrant visas issued and refused are to be reported semiannually. The reporting periods are October 1 - March 31 and April 1 - September 30. The Nonimmigrant data is continuously replicated to the Consular Affairs Consolidated Consular Database (CCD) in Washington. Therefore, posts are not required to submit a formal report. Posts' semiannual report data will be retrieved from the CCD approximately 10 days after the end of each reporting period. Any cases that were printed during the semiannual reporting period but have not been Q.A.'ed as of that time will NOT be included in the semiannual workload totals. Therefore, posts should verify that there are no cases pending Q.A. status at that time.
