OBJECTIVE

2.1. The objective of this Agreement is to define and establish the general terms and conditions that shall apply to the initiation, conduct, and management of research, development, test, and evaluation activities detailed in separate Project Agreements (PAs) or Equipment and Material Transfer Agreements (E&MTAs) between representatives authorized in accordance with national procedures of the Parties. These PAs and E&MTAs shall be entered into pursuant to this Agreement and shall incorporate by reference the terms of this Agreement. Additionally, this Agreement shall allow the exchange of Information for the purpose of harmonizing the Parties' military requirements to assist in better defining potential future cooperative efforts under this Agreement.

2.2. Detailed terms and conditions of each individual PA and E&MTA shall be consistent with this Agreement. Each PA shall include specific provisions concerning the objectives, scope of work, sharing of work, management structure, financial arrangements, and security classification for the applicable PA in accordance with the format set forth in Annex A (Model Project Agreement) of this Agreement, to the extent applicable and practical. Each E&MTA shall contain provisions consistent with the format set forth in Annex B (Model Equipment and Material Transfer Agreement (E&MTA)) of this Agreement, to the extent applicable and practical.

2.3. This Agreement supersedes the TDSP Agreement, which shall terminate upon the entry into force of this Agreement, except as follows:

2.3.1. The TDSP Agreement shall remain in force as to all PAs that were entered into under the TDSP Agreement and that have not expired prior to entry into force of this Agreement. For the purpose of each of those PAs, the duration period of the TDSP Agreement shall be the same as the PA duration period specified in each PA.

ARTICLE III

5.3. Both Parties shall perform, or have performed, their tasks and shall use their best efforts to perform the tasks within the cost estimates specified in each PA. During the Contracting process, each Party's Contracting Officer shall advise prospective Contractors of their responsibility to notify the Contracting Agency, before Contract award, if they are subject to any license or agreement that will restrict their freedom to disclose Information or permit its use. The Contracting Officer shall also advise prospective Contractors to employ their best efforts not to enter into any new agreement or arrangement that will result in such restrictions.

6.6. Prospective Contractors shall not be authorized use for any other purpose if they are not awarded a Contract. The Prospective Contractors shall also be legally bound not to retransfer the export-controlled Information to a prospective subcontractor unless that prospective subcontractor has been legally bound to limit use of the export-controlled Information for the purpose of responding to the solicitation. Export-controlled Information furnished by one Party under this Agreement or a PA or E&MTAs under this Agreement may only be retransferred by the other Party to its Prospective Contractors if the legal arrangements required by this paragraph have been established. Upon request by the furnishing Party, the receiving Party shall identify its Prospective Contractors and prospective subcontractors receiving such export-controlled Information.

Export-controlled Information may be furnished by Contractors, subcontractors, Prospective Contractors, and prospective subcontractors of one Party's nation to the Contractors, subcontractors, Prospective Contractors, and prospective subcontractors of the other Party's nation pursuant to a PA or E&MTA under this Agreement, subject to the conditions established in licenses or other approvals issued by the Government of the former Party in accordance with its applicable export control laws and regulations.

8.1.2.4. If a Party finds it necessary to exercise a restriction on the retransfer of export-controlled Information as set out in subparagraph 8.1.2.2. of this Article, it shall promptly inform the other Party. If a restriction is then exercised and the affected Party objects, that Party's SC representative (or PO, if no SC is established under a PA, or point of contact in the case of an E&MTA) shall promptly notify the other Party's SC representative (or PO, if no SC is established, or point of contact in the case of an E&MTA), and they shall

immediately consult in order to discuss ways to resolve such issues or mitigate any adverse effects.

8.1.3. Pursuant to paragraphs 3.2. and 3.3. of Article III (Scope of Work) of this Agreement, the Parties may exchange Information under this MOU for the objectives of harmonizing the Parties' requirements and formulating, developing, and negotiating potential PAs and E&MTAs. The Party furnishing such Information shall clearly indicate to the receiving Party that it is furnishing such Information for such objectives. Until a PA is signed, or if no PA is signed, a Party may use Information received pursuant to paragraphs 3.2. and 3.3. only for information and evaluation purposes and shall not disclose or transfer such information to a Third Party. The receiving Party shall not disclose such Information to Contractors or any other persons, other than its Contractor Support Personnel, without the specific prior written consent of the furnishing Party.

8.1.4. The following provisions shall apply to E&MTAs:

8.1.4.1. Under each E&MTA, the Party transferring the Equipment and Material to the receiving Party shall provide, without charge, to the receiving Party such operation and maintenance Information as is necessary to conduct the test and evaluation of the Equipment and Material. The receiving Party may use the Information only for the operation and maintenance of the transferred Equipment and Material, unless otherwise provided in the E&MTA.

8.1.4.2. 8.2. Government Project Foreground Information

8.2.1. Disclosure: All Project Foreground Information generated by a Party's military or civilian employees (hereinafter referred to as "Government Project Foreground Information") shall be disclosed promptly and without charge to the Parties.

8.2.2. Use: Each Party may use or have used all Government Project Foreground Information without charge for Defense Purposes. The Party generating Government Project Foreground Information shall also retain all its rights of use thereto. Any sale or

8.3.1. Disclosure: Each Party, upon request, shall disclose promptly and without charge to the other Party any relevant Government Project Background Information generated by its military or civilian employees, provided that:

8.3.1.1. Such Government Project Background Information is necessary to or useful in a specific PA, with the Party in possession of the Information determining, after consulting with the requesting Party, whether it is "necessary to" or "useful in" the specific PA.

8.3.1.2. Such Government Project Background Information may be made available only if the rights of holders of Intellectual Property rights are not infringed.

8.3.1.3. Disclosure of such Government Project Background Information is consistent with national disclosure policies and regulations of the furnishing Party.

8.3.1.4. Any disclosure or transfer of such Government Project Background Information to Contractors is consistent with the furnishing Party's export control laws and regulations.

8.3.2. Use: Government Project Background Information furnished by one Party to the requesting Party may be used without charge by or for the requesting Party for Project purposes of a specific PA. However, subject to Intellectual Property rights held by entities other than the Parties, such Government Project Background Information may be used for Defense Purposes by the requesting Party, without charge, when such Information is necessary for the use of Project Foreground Information. The furnishing Party, in consultation with the other Party, shall determine whether the Government Project Background Information is necessary for the use of Project Foreground Information. The furnishing Party shall retain all its rights with respect to such Government Project Background Information.

8.4. Contractor Project Foreground Information

8.4.1. Disclosure: Project Foreground Information generated and delivered by Contractors (hereinafter referred to as "Contractor Project Foreground Information") shall be disclosed promptly and without charge to both Parties.

8.4.2. Use: Each Party may use or have used without charge for Defense Purposes all Contractor Project Foreground Information generated and delivered by Contractors of the

Parties. The Party whose Contractors generate and deliver Contractor Project Foreground Information shall also retain all its rights of use thereto in accordance with the applicable Contracts. Any sale or other transfer to a Third Party of Contractor Project Foreground Information shall be subject to the conditions of Article XII (Third Party Sales and Transfers) of this Agreement.

8.5. Contractor Project Background Information

8.5.1. Disclosure: A Contracting Party shall make available to the other Party promptly and without charge all Contractor Project Background Information generated by Contractors that is delivered under Contracts awarded in accordance with a specific PA. Any other Project Background Information that is generated by Contractors and that is in the possession of one Party shall be made available promptly and without charge to the other Party, upon its request, provided the following conditions are met:

8.5.1.1. Such Contractor Project Background Information is necessary to or useful in a specific PA, with the Party in possession of the Information determining, after consultation with the requesting Party, whether it is "necessary to" or "useful in" the PA.

8.5.1.2. Such Contractor Project Background Information may be made available only if the rights of holders of Intellectual Property rights are not infringed.

8.5.1.3. Disclosure of such Contractor Project Background Information is consistent with national disclosure policies and regulations of the furnishing Party.

8.5.1.4. Any disclosure or transfer of such Contractor Project Background Information to Contractors is consistent with the furnishing Party's export control laws and regulations.

8.5.2. Use: All Contractor Project Background Information delivered by Contractors under Contracts awarded in accordance with a specific PA may be used by or for the receiving Party, without charge, for Project purposes, subject to any restrictions by holders of Intellectual Property rights other than the Parties. Any other Contractor Project Background Information furnished by one Party's Contractors and disclosed to a requesting Party may be used without charge by the requesting Party for Project purposes for the specific PA, subject to any restrictions by holders of Intellectual Property rights other than the Parties. The furnishing Party shall retain all its rights with respect to Contractor Project Background Information.

8.6. Alternative Uses of Project Information

8.6.1. Any Project Background Information provided by one Party shall be used by the

other Party only for the purposes set forth in this Agreement or any PA under this Agreement, unless otherwise consented to in writing by the providing Party.

8.6.2. The prior written consent of each Party shall be required for the use of Project Foreground Information for purposes other than those provided for in this Agreement or any PA under this Agreement.

8.7. Proprietary Project Information

8.7.1. All Project Information that is subject to disclosure and use restrictions with respect to Intellectual Property rights shall be identified and marked, and it shall be handled as Controlled Unclassified Information or as Classified Information, depending on its security classification.

8.7.2. The provisions of the NATO Agreement on the Communication of Technical Information for Defence Purposes, done at Brussels on October 19, 1970, and the Implementing Procedures for the NATO Agreement on the Communication of Technical Information for Defence Purposes, approved by the North Atlantic Council on January 1, 1971 (or any successor agreement and procedures) shall apply to Project Information that is subject to Intellectual Property rights.

8.8. Patents

8.8.1. Each Party shall include in all its Contracts for a Project a provision governing the disposition of rights in regard to Project Inventions and Patent rights relating thereto that either:

8.8.1.1. Provides that the Party shall hold title to all such Project Inventions together with the right to make Patent applications for the same, free of encumbrance from the Contractor concerned; or

8.8.1.2. Provides that the Contractor shall hold title (or may elect to retain title) for such Project Inventions together with the right to make Patent applications for the same, while securing for the Parties a license for the Project Inventions, and any Patents thereto, on terms in compliance with the conditions of subparagraph 8.8.2. of this Article.

8.8.2. In the event that a Contractor owns title (or elects to retain title) to any Project Invention, the Contracting Party shall secure for the other Party non-exclusive, irrevocable, royalty-free licenses under all Patents secured for that invention, to practice or have practiced the patented Project Invention throughout the world for Defense Purposes.

8.8.3. The conditions of subparagraphs 8.8.4. through 8.8.7. of this Article shall apply in regard to Patent rights for all Project Inventions made by the Parties' military or civilian employees, including those within Government-owned facilities, and for all Project

Inventions made by Contractors for which the Contracting Party holds title or is entitled to acquire title.

8.8.4. When a Party has or can secure the right to file a Patent application with regard to a Project Invention, that Party shall consult with the other Party regarding the filing of such Patent application. The Party that has or receives title to such Project Invention shall, in other countries, file, cause to be filed, or provide the other Party with the opportunity to file on behalf of the Party holding title, Patent applications covering that Project Invention. A Party shall immediately notify the other Party that a Patent application has been filed. If a Party, having filed or caused to be filed a Patent application, abandons prosecution of the application or ceases maintaining the Patent granted or issued on the application, that Party shall notify the other Party of that decision and permit the other Party to continue the prosecution or maintain the Patent as the case may be.

8.8.5. Each Party shall be furnished with copies of Patent applications filed and Patents granted with regard to Project Inventions.

8.8.6. Each Party shall grant to the other Party a non-exclusive, irrevocable, royalty-free license under its Patents for Project Inventions, to practice or have practiced the Project Invention throughout the world for Defense Purposes.

8.8.7. Patent applications to be filed, or assertions of other Intellectual Property rights, under this Agreement that contain Classified Information shall be protected and safeguarded in a manner no less stringent than the requirements contained in the NATO Agreement for the Mutual Safeguarding of Secrecy of Inventions Relating to Defence and for Which Applications for Patents Have Been Made, done in Paris on September 21, 1960, and its Implementing Procedures (or any successor agreement and procedures).

8.9. Each Party shall notify the other Party of any Intellectual Property infringement claims brought against that Party arising in the course of work performed under a Project on behalf of the other Party. Insofar as possible, the other applicable Party shall provide Information available to it that may assist in defending such claims. Each Party shall be responsible for handling such Intellectual Property infringement claims brought against it, and shall consult with the other Party during the handling, and prior to any settlement, of such claims. The Parties shall share the costs of resolving such Intellectual Property infringement claims in proportion to their financial contributions for that work specified in the article concerning financial provisions in the applicable PA.

8.10. The Parties shall, as permitted by their national laws, regulations, and practices, give their authorization and consent for all use and manufacture in the course of work performed under a Project of any invention covered by Patent, or as determined to be necessary for work under the Project, authorization and consent for non-commercial copyright, granted or otherwise provided by their respective countries.

ARTICLE IX

CONTROLLED UNCLASSIFIED INFORMATION

9.1. Except as otherwise provided in this Agreement or as authorized in writing by the originating Party, Controlled Unclassified Information provided or generated pursuant to this Agreement and any of its PAs and E&MTAs shall be controlled as follows:

- 9.1.1. Such Information shall be used only for the purposes authorized for use of Information as specified in Article VIII (Disclosure and Use of Project Information) of this Agreement.
- 9.1.2. Access to such Information shall be limited to personnel whose access is necessary for the permitted use under subparagraph 9.1.1. of this Article, and shall be subject to the provisions of Article XII (Third Party Sales and Transfers) of this Agreement.
- 9.1.3. Each Party shall take all lawful steps available to it, including national classification, to keep such Information free from further disclosure (including requests under any legislative provisions), except as provided in subparagraph 9.1.2. of this Article, unless the originating Party consents to such disclosure. In the event of unauthorized disclosure, or if it becomes probable that the Information may have to be further disclosed under any legislative provision, immediate notification shall be given to the originating Party.

9.2. To assist in providing the appropriate controls, the originating Party shall ensure that Controlled Unclassified Information is appropriately marked to ensure its "in confidence" nature. The Parties' export-controlled Information shall be marked in accordance with the applicable Party's export control markings as documented in the Project Security Instruction for the applicable PA. The Parties shall also decide, in advance and in writing, on the markings to be placed on any other types of Controlled Unclassified Information and describe such markings in the Project Security Instruction.

9.3. Controlled Unclassified Information provided or generated pursuant to this Agreement and any of its PAs and E&MTAs shall be handled in a manner that ensures control as provided for in paragraph 9.1. of this Article.

9.4. Prior to authorizing the release of Controlled Unclassified Information to Contractors, the Parties shall ensure that the Contractors are legally bound to control such Information in accordance with the provisions of this Article.

ARTICLE X

VISITS TO ESTABLISHMENTS

10.1. Each Party shall permit visits to its Government establishments, agencies and laboratories, and Contractor industrial facilities by employees of the other Party or by employees of the other Party's Contractors, provided that the visit is authorized by both Parties and the employees have any necessary and appropriate security clearances and a need-to-know.

10.2. All visiting personnel shall be required to comply with security regulations of the hosting Party. Any Information disclosed or made available to visitors shall be treated as if supplied to the Party sponsoring the visiting personnel, and shall be subject to the provisions of this Agreement.

10.3. Requests for visits by personnel of one Party to a facility of the other Party shall be coordinated through official channels, and shall conform to the established visit procedures of the hosting Party. Requests for visits shall bear the name of this Agreement and the appropriate PA or E&MTA.

10.4. Lists of personnel of each Party required to visit, on a continuing basis, facilities of the other Party shall be submitted through official channels in accordance with recurring international visit procedures.

ARTICLE XI

SECURITY

11.1. All Classified Information provided or generated pursuant to this Agreement and its PAs or E&MTAs shall be stored, handled, transmitted, and safeguarded in accordance with the General Security Agreement between Norway and the United States of America, which entered into force on February 26, 1970, and was amended on September 27, 1984, including the Industrial Security Annex thereto of October 24, 1984.

11.2. Classified Information shall be transferred only through official government-to-government channels or through channels approved by the Designated Security Authorities (DSAs) of the Parties. Such Classified Information shall bear the level of classification and denote the country of origin, the conditions of release, and the fact that the Information relates to this Agreement and the applicable PA or E&MTA.

11.3. Each Party shall take all lawful steps available to it to ensure that Classified Information provided or generated pursuant to this Agreement and its PAs or E&MTAs is protected from further disclosure, except as permitted by this Article, unless the other Party consents to such disclosure. Accordingly, each Party shall ensure that the recipient:

- 11.3.1. Shall not release the Classified Information to any government, national, organization, or other entity of a Third Party except as permitted under the procedures set forth in Article XII (Third Party Sales and Transfers) of this Agreement.
- 11.3.2. Shall not use the Classified Information for other than the purposes provided for in this Agreement and its PAs or E&MTAs.
- 11.3.3. Shall comply with any distribution and access restrictions on Classified Information that are provided under this Agreement and its PAs or E&MTAs.

11.4. The Parties shall investigate all cases in which it is known or when there are grounds for suspecting that Classified Information provided or generated pursuant to this Agreement and its PAs or E&MTAs has been lost or disclosed to unauthorized persons. Each Party also shall promptly and fully inform the other Party of the details of any such occurrence, and of the final results of the investigation and of the corrective action taken to preclude recurrence.

11.5. The POs shall prepare a Project Security Instruction (PSI) and a Classification Guide (CG) for the Project under a PA. The PSI and the CG shall describe the methods by which Project Information shall be classified, marked, used, transmitted, and safeguarded, and shall require that markings for all export-controlled Classified Information shall include the applicable export control markings identified in the PSI in accordance with paragraph 9.2. of Article IX (Controlled Unclassified Information) of this Agreement. The PSI and CG shall be developed by the POs

within three months after the PA enters into force. They shall be reviewed and forwarded to the Parties' DSAs for approval and shall be applicable to all Government and Contractor personnel participating in the Project. The CG shall be subject to regular review and revision with the aim of downgrading the classification whenever this is appropriate. The PSI and the CG shall be approved by the appropriate DSA prior to the transfer of any Classified Information or Controlled Unclassified Information.

11.6. The DSA of the Party that awards a classified Contract shall assume responsibility for administering within its territory security measures for the protection of the Classified Information, in accordance with its laws and regulations. Prior to the release to a Contractor, Prospective Contractor, or subcontractor of any Classified Information received under this Agreement and its PAs or E&MTAs, the DSAs or their designees shall:

- 11.6.1. Ensure that such Contractor, Prospective Contractor, or subcontractor (and their facilities) have the capability to protect the Classified Information adequately.
- 11.6.2. Grant a security clearance to the facilities, if appropriate.
- 11.6.3. Grant a security clearance for all personnel with duties that require access to Classified Information, if appropriate.
- 11.6.4. Ensure that all persons having access to the Classified Information are informed of their obligations to protect the Classified Information in accordance with national security laws and regulations and the conditions of this Agreement.
- 11.6.5. Carry out periodic security inspections of cleared facilities to ensure that the Classified Information is properly protected.
- 11.6.6. Ensure that access to the Classified Information is limited to those persons who have a need-to-know for purposes of the Agreement and its PAs or E&MTAs.

11.7. Contractors, Prospective Contractors, or subcontractors that are determined by DSAs to be under financial, administrative, policy, or management control of nationals or entities of a Third Party, may participate in a Contract or subcontract requiring access to Classified Information provided or generated pursuant to this Agreement and its PAs or E&MTAs only when enforceable measures are in effect to ensure that nationals or other entities of a Third Party shall not have access to Classified Information. If enforceable measures are not in effect to preclude access by nationals or other entities of a Third Party, the other Party shall be consulted for approval prior to permitting such access.

11.8. For any facility in which Classified Information is to be used, the responsible Party or Contractor shall approve the appointment of a person or persons to exercise effectively the obligations for safeguarding at such facility the Information pertaining to this Agreement and its PAs or E&MTAs. These officials shall be responsible for limiting access to Classified Information

involved in this Agreement and its PAs or E&MTAs to those persons who have been properly approved for access and have a need-to-know.

11.9. Each Party shall ensure that access to Classified Information is limited to those persons who possess requisite security clearances and have a specific need for access to the Classified Information in order to participate in this Agreement and its PAs or E&MTAs.

11.10. Information provided or generated pursuant to this Agreement and its PAs or E&MTAs may be classified as high as SECRET. The existence of this Agreement is unclassified and the contents are unclassified. The classification of the existence of a PA or E&MTA and its contents shall be stated in the PA or E&MTA.

ARTICLE XII

THIRD PARTY SALES AND TRANSFERS

12.1. Except to the extent permitted in paragraph 12.2. of this Article, the Parties shall not sell, transfer title to, disclose, or transfer possession of Project Foreground Information, any item produced either wholly or in part from Project Foreground Information, jointly acquired or produced Equipment and Material, or Information generated under an E&MTA to any Third Party without the prior written consent of the Government of the other Party. Furthermore, neither Party shall permit any such sale, disclosure, or transfer, including by the owner of the item, without the prior written consent of the Government of the other Party. Such consent shall not be given unless the government of the intended recipient confirms in writing with the Parties that it shall:

- 12.1.1. Not retransfer, or permit the further retransfer of, any Equipment and Material or Information provided.
- 12.1.2. Use, or permit the use of, the Equipment and Material or Information provided only for the purposes specified by the Parties.

12.2. Each Party shall retain the right to sell, transfer title to, disclose, or transfer possession of Project Foreground Information or any item produced wholly, or in part, from Project Foreground Information:

- 12.2.1. That is generated solely by either that Party or that Party's Contractors in the performance of that Party's work allocation under a PA; and
- 12.2.2. That does not include any Project Foreground Information or Project Background Information of the other Party and whose generation, test, or evaluation has not relied on the use of Equipment and Material of the other Party.

12.3. In the event questions arise whether the Project Foreground Information (or any item produced either wholly or in part from the Project Foreground Information) that a Party intends to sell, transfer title to, disclose, or transfer possession of to a Third Party is within the scope of paragraph 12.2. of this Article, the matter shall be brought to the immediate attention of the other Party's PO. The Parties shall resolve the matter prior to any sale or other transfer of such Project Foreground Information (or any item produced either wholly or in part from the Project Foreground Information) to a Third Party.

12.4. A Party shall not sell, transfer title to, disclose, or transfer possession of Equipment and Material or Project Background Information provided by the other Party to any Third Party without the prior written consent of the Government of the other Party that provided such Equipment and Material or Information. Furthermore, a Party shall not sell, transfer title to, disclose, or transfer possession of any Information provided by the other Party under an E&MTA

that was not generated under that E&MTA without the prior written consent of the Government of the other Party that provided such Information. The providing Party's Government shall be solely responsible for authorizing the transfers described in this paragraph and, as applicable, specifying the method and conditions for implementing such transfers.

ARTICLE XIII

LIABILITY AND CLAIMS

13.1. Except as indicated in paragraph 13.5. of this Article, for liability arising out of, or in connection with, activities undertaken in the performance of official duty in the execution of the Agreement, the following conditions shall apply:

13.1.1. Claims against a Party or its military or civilian personnel shall be dealt with in accordance with the terms of applicable multilateral or bilateral treaties and agreements of the Parties.

13.1.2. For those claims for which multilateral or bilateral treaties or agreements do not apply, the following conditions shall apply:

13.1.2.1. With the exception of claims for loss of or damage to Equipment and Material, which are addressed in Article VII (Equipment and Material) of this Agreement, each Party waives all claims against the other Party in respect to injury to or death of its military or civilian personnel and for damage to or loss of its property (including its interest in jointly acquired Equipment and Material) caused by such personnel of the other Party. However, if the Parties determine that such injury, death, damage, or loss results from reckless acts or reckless omissions, willful misconduct or gross negligence of a Party's military or civilian personnel, the costs of any liability shall be borne by that Party alone.

13.1.2.2. Claims from any other persons for injury, death, damage, or loss of any kind caused by one of the Parties' military or civilian personnel shall be processed by the most appropriate Party, as determined by the Parties. Any costs determined to be owed the claimant shall be borne by the Parties in the same ratios as their financial and non-financial contributions specified in the PA under this Agreement. However, if the Parties determine that such injury, death, damage, or loss results from reckless acts or reckless omissions, willful misconduct, or gross negligence of a Party's military or civilian personnel, the costs of any liability shall be borne by that Party alone.

13.2. If a person or entity, other than the Parties' military or civilian personnel, damages jointly acquired equipment, and the cost of making good such damage is not recoverable from such

person or entity, such cost shall be borne by the Parties in the same ratios as their financial and non-financial contributions specified in the PA under this Agreement.

13.3. Claims arising under any Contract awarded under a PA under this Agreement shall be resolved in accordance with the conditions of the Contract.

13.4. Employees and agents of Contractors are not considered civilian personnel of a Party for the purposes of this Article.

13.5. For liability arising out of, or in connection with, activities undertaken in the performance of official duty in the execution of an E&MTA under this Agreement, the following conditions shall apply:

13.5.1. With the exception of claims for loss of or damage to Equipment and Material transferred under the E&MTA, which are addressed in Article VII (Equipment and Material) of this Agreement, each Party waives all claims against the other Party for any injury to or death of its military or civilian personnel and for damage to or loss of its property that may arise out of the use of the Equipment and Material.

13.5.2. Each Party shall not seek indemnification from the other Party for claims from any other persons for injury, death, damage, or loss of any kind that may arise out of the use of the Equipment and Material.

ARTICLE XIV

CUSTOMS DUTIES, TAXES, AND SIMILAR CHARGES

14.1. Customs duties, import and export taxes, and similar charges shall be administered in accordance with each Party's respective laws and regulations. Insofar as existing national laws and regulations permit, the Parties shall endeavor to ensure that such readily identifiable customs duties, import and export taxes, and similar charges, as well as quantitative or other restrictions on imports and exports, are not imposed in connection with work carried out under each PA or E&MTA under this Agreement.

14.2. Each Party shall use its best efforts to ensure that customs duties, import and export taxes, and similar charges are administered in a manner favorable to the efficient and economical conduct of the work carried out under each PA or E&MTA. If any such duties, taxes, or similar charges are levied in connection with a Project, the Party in whose country they are levied shall bear such costs over and above that Party's shared costs of the Project.

ARTICLE XV

SETTLEMENT OF DISPUTES

15.1. Disputes between the Parties arising under or relating to this Agreement and any of its PAs or E&MTAs shall be resolved only by consultation between the Parties and shall not be referred to a national court, an international tribunal, or to any other person or entity for settlement.

ARTICLE XVI

LANGUAGE

16.1. The working language for the Agreement and its PAs and E&MTAs shall be the English language.

16.2. All Information generated under this Agreement, the PAs or E&MTAs under this Agreement, and the implementing Contracts for PAs and provided by one Party to the other Party shall be furnished in the English language.

ARTICLE XVII

AMENDMENT, TERMINATION, ENTRY INTO FORCE, AND DURATION

17.1. All activities of the Parties under this Agreement and the PAs and E&MTAs under this Agreement shall be carried out in accordance with their respective national laws and regulations, including their respective export control laws and regulations. The obligations of the Parties under this Agreement and its PAs and E&MTAs shall be subject to the availability of funds for such purposes.

17.2. In the event of a conflict between an Article of this Agreement and any Annex to this Agreement, the Article shall control.

17.3. In the event of a conflict between the terms of this Agreement and any PA or E&MTA under this Agreement, the Agreement shall govern, unless the Parties decide to deviate from this Agreement and identify specifically such deviations in the PA or E&MTA.

17.4. This Agreement and its PAs may be amended by the mutual written consent of the Parties. Annexes to the PAs may be amended by the SC or, if there is no SC, the POs, except for Appendix (1) (Assignment of Cooperative Project Personnel) to Annex A (Model Project Agreement), which may be amended only by the Parties. Amendments to the Annexes of a PA by the SC (or the POs if there is no SC) shall be consistent with the Articles of the PA.

17.5. This Agreement and its PAs may be terminated at any time by the written consent of the Parties. In the event both Parties consent to terminate this Agreement, or decide to terminate any PA, the Parties shall consult prior to the date of termination to ensure termination in the most economical and equitable manner.

17.6. Either Party may terminate this Agreement or any of its PAs upon 90 days written notification to the other Party of its intent to terminate. Such notice shall be the subject of immediate consultation by the ADs to decide upon the appropriate course of action to conclude the activities under this Agreement and the subject of immediate consultation by the SC (or the MAs if no SC is established) to discuss how to conclude any terminated PAs. In the event of such termination, the following rules apply:

17.6.1. The Party terminating the Agreement or PAs shall continue participation, financial or otherwise, in the Agreement or the PAs affected by the notification of termination, up to the effective date of termination.

17.6.2. Except as to Contracts awarded on behalf of both Parties, each Party shall be responsible for its own Project-related costs associated with termination of the Project under a PA. For Contracts awarded on behalf of both Parties, the Party responsible for terminating the Project shall pay all Contract modification or termination costs that would not otherwise have been incurred but for the

decision to terminate; in no event, however, shall a terminating Party's total financial contribution, including Contract termination costs, exceed that Party's total financial contribution for the PA being terminated.

17.6.3. All Information and rights therein received under the provisions of this Agreement or PAs prior to termination of the Agreement or its PAs shall be retained by the Parties, subject to the conditions of this Agreement and its PAs.

17.6.4. If requested by the other Party, the terminating Party may continue to administer the Project Contract(s) that it awarded on behalf of the other Party on a reimbursable basis.

17.7. The respective rights and obligations of the Parties regarding Article VII (Equipment and Material), Article VIII (Disclosure and Use of Project Information), Article IX (Controlled Unclassified Information), Article XI (Security), Article XII (Third Party Sales and Transfers), Article XIII (Liability and Claims), Article XV (Settlement of Disputes), and this Article XVII (Amendment, Termination, Entry Into Force, and Duration) of this Agreement shall continue notwithstanding termination or expiration of this Agreement and any of its PAs or E&MTAs.

17.8. This Agreement, which consists of seventeen (17) Articles and three Annexes, shall enter into force upon signature by both Parties and shall remain in force for 15 years. It may be extended by written agreement of the Parties.

IN WITNESS WHEREOF, the undersigned, being duly authorized by their Governments, have signed this Agreement.
