*Agreement signed at Washington March 14, 2007;  
Entered into force March 14, 2007.*

**FRAMEWORK AGREEMENT**  
**ON INCREASED COOPERATION**  
**BETWEEN**  
**THE UNITED STATES DEPARTMENT OF AGRICULTURE**  
**AND**  
**THE FOOD AND AGRICULTURE ORGANIZATION**  
**OF THE UNITED NATIONS**

The United States Department of Agriculture ("USDA") and the Food and Agriculture Organization of the United Nations ("FAO") (collectively "the Parties"), desiring to further strengthen their cooperation to promote and support the development of a viable and sustainable global agricultural system and which are consistent with and supportive of FAO's mandate and medium-term strategy, hereby agree as follows:

**1. Objective and Purpose**

- 1.1 The overall objective of this Framework Agreement is to further USDA's goal of cooperating with international agricultural organizations in activities that promote and further develop the global agricultural system. USDA will provide funds and resources to support FAO projects that advance that goal, that advance FAO's work towards meeting the Millennium Development Goals (MDGs) in developing countries, and that contribute to the realization of FAO's programme of work/mid-term strategy as approved by FAO's Governing Bodies.
- 1.2 This Framework Agreement sets out the general terms concerning the transfer and administration of USDA's grants to FAO for the realization of the MDGs.
- 1.3 Activities under this Framework Agreement will be mutually agreed upon by the Parties and implemented through separate, specific Programme Agreements entered into by the Parties under this Framework Agreement. Funded activities may include supplementary programme activities approved by the Governing Bodies of FAO.
- 1.4 USDA may provide human resources to support FAO projects. Such human resource transfers will be set forth in separate, specific Programme Agreements that will include provisions for funding time-limited U.S. expertise in specific areas that are in demand by FAO and that promote increased learning by U.S. specialists.

## **2. Programming of Funds**

2.1 In the selection and implementation of activities financed under this Framework Agreement, FAO will adhere to the relevant policy decisions and guidelines approved by its Governing Bodies and a common set of objectives and principles for the international development community which are contained in political declarations and plans of action from relevant UN summits, notably the Millennium Assembly, with particular emphasis on:

- contributing to poverty eradication through economic growth and permanent improvement of the economic and social conditions for the poorer part of the population in the developing countries through long-term, target-oriented and efficient support, which shall assist the involved countries' own mobilization of human and other resources;
- ensuring that the development assistance is based on a dialogue with the partner countries and is in accordance with their own priorities and development plans, in particular national poverty reduction strategies;
- contributing to capacity-building and institutional development in recipient countries;
- aiming at sustainable development; and
- ensuring that gender considerations are fully taken into account.

2.2 USDA's grants to FAO's work will be allocated to thematic priority areas and specific programmes as specified in Programme Agreements under this Framework Agreement.

2.3 USDA's grants to projects/programmes under FAO's administration will be allocated on the basis of project/programme documents/proposals submitted by FAO and approved for financing by USDA.

2.4 For USDA-funded activities, FAO will prepare annual work plans and annual strategic implementation plans as well as annual budgets. These documents are to be updated each year, or as indicated in the Programme Agreements.

2.5 Activities at country level will take place within the framework of national poverty reduction strategies or other comparable national policy or planning instruments and, whenever possible, be included in the national budget. Maximum efforts will be made to ensure effective coordination with other planned or ongoing activities in the same field, regardless of source of funding.

2.6 To maximize the development effectiveness of activities undertaken pursuant to this Framework Agreement, FAO will pursue collaboration with other relevant development collaborators and participate in the work of the Common Country Assessment (CCA) and United Nations Development Assistance Framework (UNDAF) and other relevant coordination mechanisms.

## **3. Financial Support**

All such financial records must be maintained for at least three years after the final disbursement of funds under each Programme Agreement.
