

# Emirates Airline

Cargo Security  
'The EK Experience'

# The aim of Aviation Security

---

The aim of aviation security is to safeguard passengers, crew, ground personnel and the general public from acts of unlawful interference against civil aviation.

This will include aspects of both general and aviation related security in the Airline (EK) context.

# Emirates Group Security

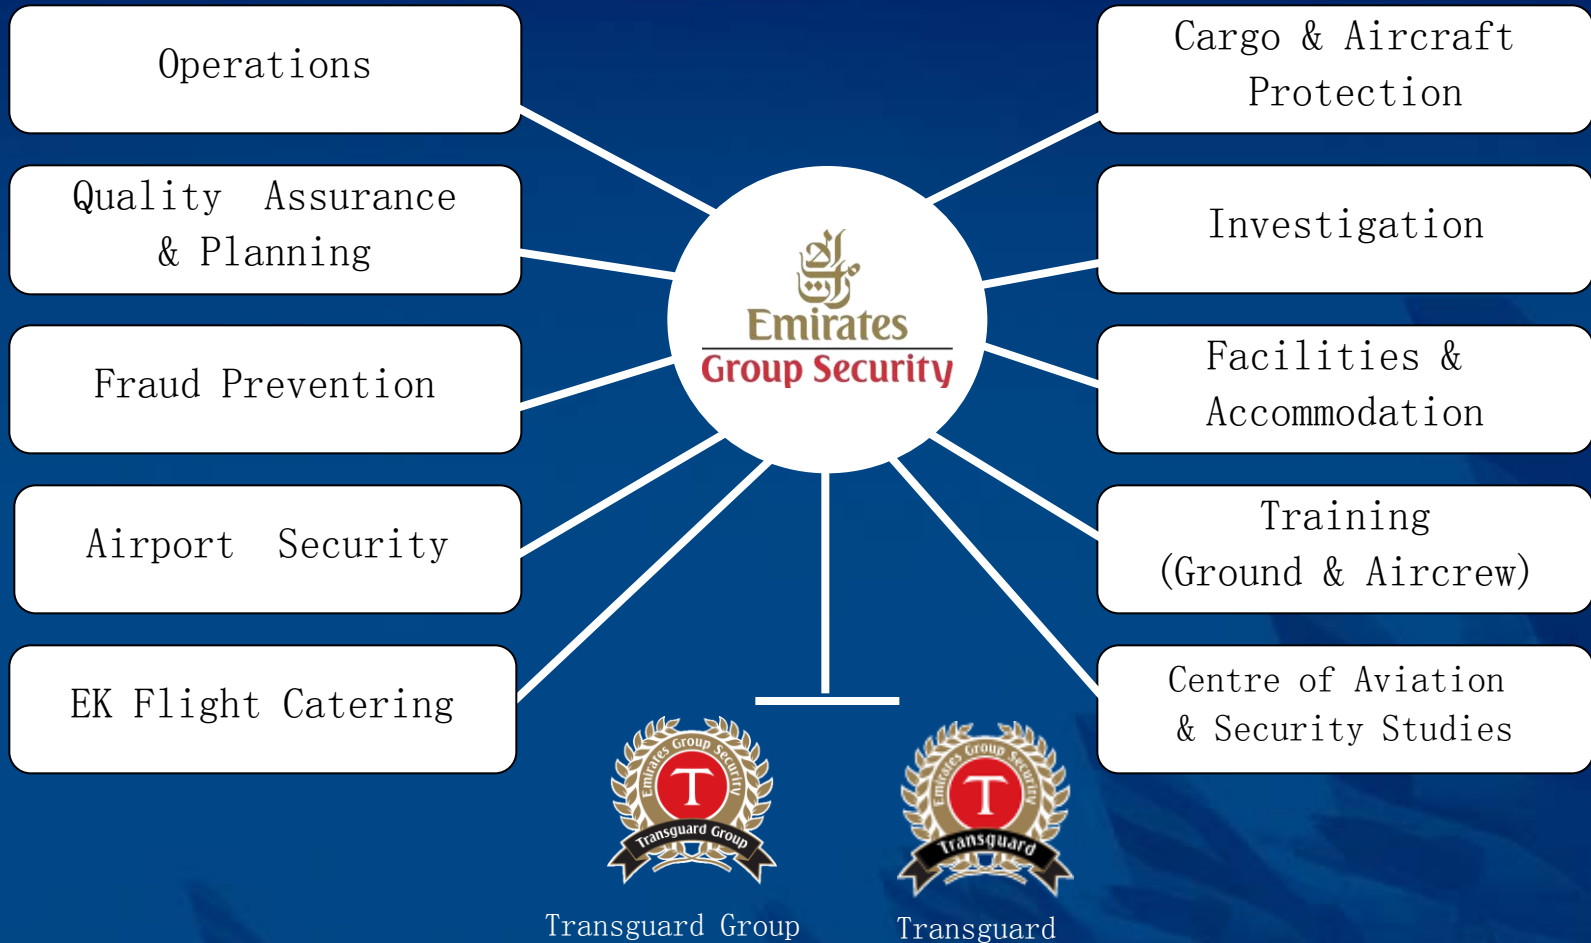

Emirates Group Security is a multi-faceted organisation that formulates and administers security strategies and measures throughout the Emirates network.

The Group branches are divided into 10 functional units and each has its own core process.

# Business Units

# Aim of Secure Freight

The initiative aims to facilitate safe, secure and efficient operations of air cargo and to ensure the protection from all acts of unlawful interference across the whole supply chain from shipper to consignee

# Cargo & Aircraft Protection

# Security Education Scheme

- Most vital component in the Security Sub-System is the “Human Factor”
- People are the component that makes a security system work or fail
- “Security is Everybody’s Business”
- One way is through Education
- Group Security has embarked on a two-pronged approach
- 1st – Offering a Diploma Course in Aviation Security Management
- 2nd – Accreditation of all its Training Programmes

# Diploma Programmes

- Diploma in Aviation Security
- Diploma in Ground Handling
- Managed by Centre of Aviation & Security Studies
- Jointly Developed by Edith Cowan University and Emirates Group Security
- Although run as a distance learning – Tutorials are held in Dubai once a month
- Technical and Administration Support from Group Security

Thank you
