BETWEEN
THE GOVERNMENT OF
THE UNITED STATES OF AMERICA
AND
THE GOVERNMENT OF
THE REPUBLIC OF BOTSWANA

The Government of the United States of America and the Government of the Republic of Botswana (hereinafter, "the Parties");

Desiring to promote an international aviation system based on competition among airlines in the marketplace with minimum government interference and regulation;

Desiring to make it possible for airlines to offer the traveling and shipping public a variety of service options, and wishing to encourage individual airlines to develop and implement innovative and competitive prices;

Desiring to facilitate the expansion of international air transport opportunities;

Desiring to ensure the highest degree of safety and security in international air transport and reaffirming their grave concern about acts or threats against the security of aircraft, which jeopardize the safety of persons or property, adversely affect the operation of air transportation, and undermine public confidence in the safety of civil aviation; and

Being Parties to the Convention on International Civil Aviation, done at Chicago December 7, 1944;

Have agreed as follows:

Article 1

Definitions

For the purposes of this Agreement, unless otherwise stated, the term:

 - a. any amendment that has entered into force under Article 94(a) of the Convention and has been ratified by both Parties, and
 - b. any Annex or any amendment thereto adopted under Article 90 of the Convention, insofar as such Annex or amendment is at any given time effective for both Parties;
6. "Full cost" means the cost of providing service plus a reasonable charge for administrative overhead;
7. "International air transportation" means air transportation that passes through the airspace over the territory of more than one State;
8. "Price" means any fare, rate, or charge for the carriage of passengers, baggage, or cargo (excluding mail) in air transportation, including surface transportation in connection with international air transportation, charged by airlines, including their agents, and the conditions governing the availability of such fare, rate, or charge;

Article 2

Grant of Rights

1. Each Party grants to the other Party the following rights for the conduct of international air transportation by the airlines of the other Party:
 - a. the right to fly across its territory without landing;
 - b. the right to make stops in its territory for non-traffic purposes;
 - c. the right to perform international air transportation between points on the following routes:
 - (i) for airlines of the United States, from points behind the United States via the United States and intermediate points to any point or points in Botswana and beyond; and for all-cargo service, between Botswana and any point or points;
 - (ii) for airlines of Botswana, from points behind Botswana via Botswana and intermediate points to any point or points in the United States and beyond; and for all-cargo service, between the United States and any point or points; and
 - d. the rights otherwise specified in this Agreement.
2. Each airline of a Party may, on any or all flights and at its option:
 - a. operate flights in either or both directions;
 - b. combine different flight numbers within one aircraft operation;
 - c. serve behind, intermediate, and beyond points and points in the territories of the Parties in any combination and in any order;
 - d. omit stops at any point or points;
 - e. transfer traffic from any of its aircraft to any of its other aircraft at any point;

- f. serve points behind any point in its territory with or without change of aircraft or flight number and hold out and advertise such services to the public as through services;
- g. make stopovers at any points whether within or outside the territory of either Party;
- h. carry transit traffic through the other Party's territory; and
- i. combine traffic on the same aircraft regardless of where such traffic originates;

without directional or geographic limitation and without loss of any right to carry traffic otherwise permissible under this Agreement, provided that, with the exception of all-cargo services, the transportation is part of a service that serves a point in the homeland of the airline.

3. On any segment or segments of the routes above, any airline of a Party may perform international air transportation without any limitation as to change, at any point on the route, in type or number of aircraft operated, provided that, with the exception of all-cargo services, in the outbound direction, the transportation beyond such point is a continuation of the transportation from the homeland of the airline and, in the inbound direction, the transportation to the homeland of the airline is a continuation of the transportation from beyond such point.

4. Nothing in this Article shall be deemed to confer on the airline or airlines of one Party the rights to take on board, in the territory of the other Party, passengers, baggage, cargo, or mail carried for compensation and destined for another point in the territory of that other Party.

5. Any airline of a Party performing charter international air transportation originating in the territory of either Party, whether on a one-way or round-trip basis, shall have the option of complying with the charter laws, regulations, and rules either of its homeland or of the other Party. If a Party applies different rules, regulations, terms, conditions, or limitations to one or more of its airlines, or to airlines of different countries, each airline of the other Party shall be subject to the least restrictive of such criteria. Nothing in this paragraph shall limit the rights of a Party to require airlines of both Parties to adhere to requirements relating to the protection of passenger funds and passenger cancellation and refund rights. Except with respect to the consumer protection rules referred to in this paragraph, neither Party shall require an airline of the other Party, in respect of the carriage of traffic from the territory of that other Party or of a third country on a one-way or round-trip basis, to submit more than a notice that it is complying with the applicable laws, regulations, and rules referred to in this paragraph or of a waiver of these laws, regulations, or rules granted by the applicable aeronautical authorities.

Article 3

Authorization

Each Party, on receipt of applications from an airline of the other Party, in the form and manner prescribed for operating authorizations and technical permissions, shall grant appropriate authorizations and permissions with minimum procedural delay, provided:

- a. substantial ownership and effective control of that airline are vested in the other Party, nationals of that Party, or both;
- b. the airline is qualified to meet the conditions prescribed under the laws and regulations normally applied to the operation of international air transportation by the Party considering the application or applications; and
- c. the other Party is maintaining and administering the provisions set forth in Article 6 (Safety) and Article 7 (Aviation Security).

Article 4

Revocation of Authorization

1. Either Party may revoke, suspend, limit, or impose conditions on the operating authorizations or technical permissions of an airline where:
 - a. that airline is not an airline of the other Party under Article 1(4);
 - b. substantial ownership and effective control of that airline are not vested in the other Party, the other Party's nationals, or both; or
 - c. that airline has failed to comply with the laws and regulations referred to in Article 5 (Application of Laws) of this Agreement.
2. Unless immediate action is essential to prevent further noncompliance with subparagraph 1c of this Article, the rights established by this Article shall be exercised only after consultation with the other Party.
3. This Article does not limit the rights of either Party to withhold, revoke, suspend, limit, or impose conditions on the operating authorization or technical permission of an airline or airlines of the other Party in accordance with the provisions of Article 6 (Safety) or Article 7 (Aviation Security).

Article 5**Application of Laws**

1. The laws and regulations of a Party relating to the admission to or departure from its territory of aircraft engaged in international air navigation, or to the operation and navigation of such aircraft while within its territory, shall be complied with by such aircraft upon entering, when departing from, or while within the territory of the first Party.
2. While entering, within, or leaving the territory of one Party, its laws and regulations relating to the admission to or departure from its territory of passengers, crew or cargo on aircraft (including regulations relating to entry, clearance, aviation security, immigration, passports, customs and quarantine or, in the case of mail, postal regulations) shall be complied with by, or on behalf of, such passengers, crew or cargo of the other Party's airlines.

Article 6**Safety**

1. Each Party shall recognize as valid, for the purpose of operating the air transportation provided for in this Agreement, certificates of airworthiness, certificates of competency, and licenses issued or validated by the other Party and still in force, provided that the requirements for such certificates or licenses at least equal the minimum standards that may be established pursuant to the Convention. Each Party may, however, refuse to recognize as valid for the purpose of flight above its own territory, certificates of competency and licenses granted to or validated for its own nationals by the other Party.
2. Either Party may request consultations concerning the safety standards maintained by the other Party relating to aeronautical facilities, aircrews, aircraft, and operation of airlines of that other Party. If, following such consultations, one Party finds that the other Party does not effectively maintain and administer safety standards and requirements in these areas that at least equal the minimum standards that may be established pursuant to the Convention, the other Party shall be notified of such findings and the steps considered necessary to conform with these minimum standards, and the other Party shall take appropriate corrective action. Each Party reserves the right to withhold, revoke, suspend, limit, or impose conditions on the operating authorization or technical permission of an airline or airlines of the other Party in the event the other Party does not take such appropriate corrective action within a reasonable time and to take immediate action, prior to consultations, as to such airline or airlines if the other Party is not maintaining and administering the aforementioned standards and immediate action is essential to prevent further noncompliance.

2. There shall also be exempt, on the basis of reciprocity, from the taxes, levies, duties, fees, and charges referred to in paragraph 1 of this Article, with the exception of charges based on the cost of the service provided:

a. aircraft stores introduced into or supplied in the territory of a Party and taken on board, within reasonable limits, for use on outbound aircraft of an airline of the other Party engaged in international air transportation, even when these stores are to be used on a part of the journey performed over the territory of the Party in which they are taken on board;

b. ground equipment and spare parts (including engines) introduced into the territory of a Party for the servicing, maintenance, or repair of aircraft of an airline of the other Party used in international air transportation;

c. fuel, lubricants, and consumable technical supplies introduced into or supplied in the territory of a Party for use in an aircraft of an airline of the other Party engaged in international air transportation, even when these supplies are to be used on a part of the journey performed over the territory of the Party in which they are taken on board; and

d. promotional and advertising materials introduced into or supplied in the territory of one Party and taken on board, within reasonable limits, for use on outbound aircraft of an airline of the other Party engaged in international air transportation, even when these materials are to be used on a part of the journey performed over the territory of the Party in which they are taken on board.

3. Equipment and supplies referred to in paragraphs 1 and 2 of this Article may be required to be kept under the supervision or control of the appropriate authorities.

4. The exemptions provided by this Article shall also be available where the airlines of one Party have contracted with another airline, which similarly enjoys such exemptions from the other Party, for the loan or transfer in the territory of the other Party of the items specified in paragraphs 1 and 2 of this Article.

Article 10

User Charges

1. User charges that may be imposed by the competent charging authorities or bodies of each Party on the airlines of the other Party shall be just, reasonable, not unjustly discriminatory, and equitably apportioned among categories of users. In any event, any such user charges shall be assessed on the airlines of the other Party on terms not less favorable than the most favorable terms available to any other airline at the time the charges are assessed.

2. User charges imposed on the airlines of the other Party may reflect, but shall not exceed, the full cost to the competent charging authorities or bodies of providing the appropriate airport, airport environmental, air navigation, and aviation security facilities and services at the airport or within the airport system. Such charges may include a reasonable return on assets, after depreciation. Facilities and services for which charges are made shall be provided on an efficient and economic basis.

3. Each Party shall encourage consultations between the competent charging authorities or bodies in its territory and the airlines using the services and facilities, and shall encourage the competent charging authorities or bodies and the airlines to exchange such information as may be necessary to permit an accurate review of the reasonableness of the charges in accordance with the principles of paragraphs 1 and 2 of this Article. Each Party shall encourage the competent charging authorities to provide users with reasonable notice of any proposal for changes in user charges to enable users to express their views before changes are made.

4. Neither Party shall be held, in dispute resolution procedures pursuant to Article 14, to be in breach of a provision of this Article, unless (a) it fails to undertake a review of the charge or practice that is the subject of complaint by the other Party within a reasonable amount of time; or (b) following such a review it fails to take all steps within its power to remedy any charge or practice that is inconsistent with this Article.

Article 11

Fair Competition

1. Each Party shall allow a fair and equal opportunity for the airlines of both Parties to compete in providing the international air transportation governed by this Agreement.

2. Each Party shall allow each airline to determine the frequency and capacity of the international air transportation it offers based upon commercial considerations in the marketplace. Consistent with this right, neither Party shall unilaterally limit the volume of traffic, frequency, or regularity of service, or the aircraft type or types operated by the airlines of the other Party, except as may be required for customs, technical, operational, or environmental reasons under uniform conditions consistent with Article 15 of the Convention.

3. Neither Party shall impose on the other Party's airlines a first-refusal requirement, uplift ratio, no-objection fee, or any other requirement with respect to capacity, frequency, or traffic that would be inconsistent with the purposes of this Agreement.

4. Neither Party shall require the filing of schedules, programs for charter flights, or operational plans by airlines of the other Party for approval, except as may be required on a non-discriminatory basis to enforce the uniform conditions foreseen by paragraph 2 of this Article or as may be specifically authorized in this Agreement. If a Party requires filings for information

purposes, it shall minimize the administrative burdens of filing requirements and procedures on air transportation intermediaries and on airlines of the other Party.

Article 12

Pricing

1. Each Party shall allow prices for air transportation to be established by airlines of both Parties based upon commercial considerations in the marketplace. Intervention by the Parties shall be limited to:
 - a. prevention of unreasonably discriminatory prices or practices;
 - b. protection of consumers from prices that are unreasonably high or restrictive due to the abuse of a dominant position; and
 - c. protection of airlines from prices that are artificially low due to direct or indirect governmental subsidy or support.
2. Prices for international air transportation between the territories of the Parties shall not be required to be filed. Notwithstanding the foregoing, the designated airlines of the Parties shall continue to provide immediate access, on request, to information on historical, existing, and proposed prices to the aeronautical authorities of the Parties in a manner and format acceptable to those aeronautical authorities.
3. Neither Party shall take unilateral action to prevent the inauguration or continuation of a price proposed to be charged or charged by (i) an airline of either Party for international air transportation between the territories of the Parties, or (ii) an airline of one Party for international air transportation between the territory of the other Party and any other country, including in both cases transportation on an interline or intraline basis. If either Party believes that any such price is inconsistent with the considerations set forth in paragraph 1 of this Article, it shall request consultations and notify the other Party of the reasons for its dissatisfaction as soon as possible. These consultations shall be held not later than 30 days after receipt of the request, and the Parties shall cooperate in securing information necessary for reasoned resolution of the issue. If the Parties reach agreement with respect to a price for which a notice of dissatisfaction has been given, each Party shall use its best efforts to put that agreement into effect. Without such mutual agreement, the price shall go into effect or continue in effect.

Article 13

Consultations

Either Party may, at any time, request consultations relating to this Agreement. Such consultations shall begin at the earliest possible date, but not later than 60 days from the date the other Party receives the request unless otherwise agreed.

Article 14

Settlement of Disputes

1. Any dispute arising under this Agreement, except those that may arise under Article 12 (Pricing), that is not resolved within 30 days of the date established for consultations pursuant to a request for consultations under Article 13 may be referred, by agreement of the Parties, for decision to some person or body. If the Parties do not so agree, either Party may give written notice to the other Party through diplomatic channels that it is requesting that the dispute be submitted to arbitration.
2. Arbitration shall be by a tribunal of three arbitrators to be constituted as follows:
 - a. Within 30 days after the receipt of a request for arbitration, each Party shall name one arbitrator. Within 60 days after these two arbitrators have been named, they shall by agreement appoint a third arbitrator, who shall act as President of the arbitral tribunal;
 - b. If either Party fails to name an arbitrator, or if the third arbitrator is not appointed, in accordance with subparagraph a of this paragraph, either Party may request the President of the Council of the International Civil Aviation Organization to appoint the necessary arbitrator or arbitrators within 30 days. If the President of the Council is of the same nationality as one of the Parties, the most senior Vice President who is not disqualified on that ground shall make the appointment.
3. The arbitral tribunal shall be entitled to decide the extent of its jurisdiction under this Agreement and, except as otherwise agreed, shall establish its own procedural rules. The tribunal, once formed, may at the request of either Party recommend interim relief measures pending its final determination. If either of the Parties requests it or the tribunal deems it appropriate, a conference to determine the precise issues to be arbitrated and the specific procedures to be followed shall be held not later than 15 days after the tribunal is fully constituted.

4. Except as otherwise agreed or as directed by the tribunal, the statement of claim shall be submitted within 45 days of the time the tribunal is fully constituted, and the statement of defense shall be submitted 60 days thereafter. Any reply by the claimant shall be submitted within 30 days of the submission of the statement of defense. Any reply by the respondent shall be submitted within 30 days thereafter. If either Party requests it or the tribunal deems it appropriate, the tribunal shall hold a hearing within 45 days after the last pleading is due.

5. The tribunal shall attempt to render a written decision within 30 days after completion of the hearing or, if no hearing is held, after the last pleading is submitted. The decision of the majority of the tribunal shall prevail.

6. The Parties may submit requests for interpretation of the decision within 15 days after it is rendered and any interpretation given shall be issued within 15 days of such request.

7. Each Party shall, to the degree consistent with its national law, give full effect to any decision or award of the arbitral tribunal.

8. The expenses of the arbitral tribunal, including the fees and expenses of the arbitrators, shall be shared equally by the Parties. Any expenses incurred by the President of the Council of the International Civil Aviation Organization in connection with the procedures of paragraph 2b of this Article shall be considered to be part of the expenses of the arbitral tribunal.

Article 15

Termination

Either Party may, at any time, give notice in writing to the other Party of its decision to terminate this Agreement. Such notice shall be sent simultaneously to the International Civil Aviation Organization. This Agreement shall terminate at midnight (at the place of receipt of the notice to the other Party) at the end of the International Air Transport Association (IATA) traffic season in effect one year following the date of written notification of termination, unless the notice is withdrawn by agreement of the Parties before the end of this period.

Article 16

Registration with ICAO

This Agreement and all amendments thereto shall be registered with the International Civil Aviation Organization.

Article 17
