

## ATOMIC ENERGY

### Cooperation

#### Arrangement Between the UNITED STATES OF AMERICA and JAPAN

Signed at Tokyo and Vienna  
September 10 and September 14, 2015

*with*

Annex

NOTE BY THE DEPARTMENT OF STATE

Pursuant to Public Law 89—497, approved July 8, 1966  
(80 Stat. 271; 1 U.S.C. 113)—

“ . . . the Treaties and Other International Acts Series issued under the authority of the Secretary of State shall be competent evidence . . . of the treaties, international agreements other than treaties, and proclamations by the President of such treaties and international agreements other than treaties, as the case may be, therein contained, in all the courts of law and equity and of maritime jurisdiction, and in all the tribunals and public offices of the United States, and of the several States, without any further proof or authentication thereof.”

### **Atomic Energy: Cooperation**

*Arrangement signed at Tokyo and Vienna  
September 10 and September 14, 2015;  
Entered into force September 14, 2015.  
With annex.*

IMPLEMENTING ARRANGEMENT

BETWEEN

THE UNITED STATES  
NUCLEAR REGULATORY COMMISSION

AND

THE NUCLEAR REGULATION AUTHORITY OF  
JAPAN

FOR THE EXCHANGE  
OF TECHNICAL INFORMATION

AND

COOPERATION IN NUCLEAR REGULATORY  
MATTERS

IMPLEMENTING ARRANGEMENT  
BETWEEN  
THE UNITED STATES NUCLEAR REGULATORY COMMISSION  
AND  
THE NUCLEAR REGULATION AUTHORITY OF JAPAN  
FOR THE EXCHANGE OF TECHNICAL INFORMATION  
AND  
COOPERATION IN NUCLEAR REGULATORY MATTERS

The United States Nuclear Regulatory Commission (hereinafter referred to as "the USNRC"), and the Nuclear Regulation Authority of Japan (hereinafter referred to as "the NRA"), (hereinafter jointly referred to as "the Parties");

Recognizing the "Agreement for Cooperation between the Government of the United States of America and the Government of Japan Concerning Peaceful Uses of Nuclear Energy," signed on November 4, 1987, (hereinafter referred to as "the Agreement") and the arrangement between the Government of the United States of America and the Government of Japan concerning cooperation in the field of nuclear energy-related research and development, effected by the Exchange of Notes of March 9, 2012;

Having a mutual interest in a continuing exchange of information pertaining to nuclear regulatory matters and of required or recommended standards for the regulation of safety and environmental impact of nuclear facilities;

Having cooperated under the terms of a five-year Implementing Arrangement between the USNRC and the Nuclear and Industrial Safety Agency of the Ministry of Economy, Trade, and Industry of Japan for the Cooperation in the field of Nuclear Regulatory Matters, signed at Vienna on September 22, 2010, as amended on December 14, 2012.

Have agreed as follows:

## I. SCOPE OF THE ARRANGEMENT

### A. Technical Information Exchange

To the extent that the Parties are permitted to do so under the laws, regulations, and policy directives of their respective countries, they shall continue the exchange of the following types of unclassified technical information relating to the regulation of safety, physical protection, waste management, radiological safety, and environmental impact of designated nuclear energy facilities and to nuclear safety research programs:

1. Topical reports concerning safety, physical protection, waste management, radiological safety, and environmental effects reviewed or approved by one of the Parties as a basis for, or in support of, regulatory decisions and policies.
2. Documents relating to significant licensing actions concerning safety, physical protection, waste management, radiological safety, and environmental decisions affecting nuclear facilities.
3. Detailed documents describing the USNRC process for licensing and regulating certain U.S. facilities designated by the NRA as similar to certain facilities being built or planned in Japan and equivalent documents on such facilities in Japan.
4. Information in the field of nuclear safety research that the Parties have the right to disclose, either in the possession of one of the Parties or available to it. Cooperation in certain research areas may require a separate arrangement, as determined to be necessary by the Parties. Each Party shall immediately transmit the information concerning research results that requires early attention in the interest of public safety, along with an indication of significant implications.
5. Reports on operating experience, such as nuclear incidents, accidents and shutdowns, and compilations of historical reliability data on components and systems.
6. Regulatory procedures for the safety, physical protection, waste management, radiological safety, and environmental impact evaluation of nuclear facilities.
7. Early advice of important events, such as serious operating incidents, government-directed reactor shutdowns, and emerging technical issues that are of immediate interest to the Parties.
8. Copies of regulatory standards required to be used, or proposed for use.

B. Cooperation in Nuclear Safety Research

The terms of cooperation for joint programs and projects of nuclear safety research and development, or those programs and projects under which activities are divided between the Parties, including the use of test facilities and/or computer programs owned by either Party, shall be considered on a case-by-case basis and may be the subject of a separate arrangement, if determined to be necessary by the Parties. When not the subject of a separate arrangement, the terms of cooperation may be established by an exchange of letters between the Parties, and shall be subject to the terms and conditions of the present Arrangement.

Technical areas specified by such exchanges of letters may be modified subsequently by mutual consent. Temporary assignments of personnel by one Party in the other Party's Agency shall also be considered on a case-by-case basis and shall, in general, require a separate arrangement between the Parties.

C. Exchange of Experts

The exchange of experts and cooperation between the Parties may be enhanced, insofar as it is permitted under the laws, regulations, or policy directives of their respective countries, by mutual consent of the Parties with a view to facilitating the exchange of information under this Arrangement.

The Parties may exchange information on staff training and will try to assist each other by providing certain training and experience for nuclear regulators and/or nuclear safety personnel, within the limits of available resources and subject to the availability of appropriated funds. Unless otherwise mutually determined by the Parties, costs of salary, allowances, and travel of participant will be paid by the Party that incurs them.

D. Designees

Subject to the approval of the other Party, each Party may designate non-governmental institutes or organization (hereinafter referred to as "the designees") which assist in the implementation of cooperation under this Arrangement, provided that each Party ensures by contract with its own designees or otherwise that its own designees are under its control with respect to the implementation of cooperation under this Arrangement.

## II. **ADMINISTRATION**

- A. The exchange of information under this Arrangement shall be accomplished through letters, reports, and other documents, and by visits and meetings mutually determined by the Parties in advance on a case-by-case basis. Periodic meetings shall be held at such times as mutually determined by the Parties to review the exchange of information and cooperation under this Arrangement, to recommend revisions to the provisions of the Arrangement, and to discuss topics coming within the scope of the cooperation. The time, place, and agenda for such meetings shall be mutually determined by the Parties in advance. Visits which take place under this Arrangement, including their

schedules, shall have the prior approval of the administrators referred to in paragraph II.B of this Arrangement.

- B. An administrator shall be designated by each Party to coordinate its participation in the overall exchange under this Arrangement. The administrators shall be the recipients of all documents transmitted under the exchange, including copies of all letters unless otherwise mutually determined by the Parties. Within the terms of the exchange, the administrators shall be responsible for developing the scope of the exchange, including mutual decision on the designation of the nuclear energy facilities subject to the exchange, and on specific documents and standards to be exchanged. One or more technical coordinators may be appointed as direct contacts for specific disciplinary areas. These technical coordinators shall ensure that both administrators receive copies of all transmittals. These detailed arrangements are intended to ensure, among other things, that a reasonably balanced exchange giving access to equivalent available information is achieved and maintained.
- C. The administrators shall determine the number of copies to be provided of the documents exchanged. Each document shall be accompanied by an abstract in English, 250 words or less, describing its scope and content.
- D. The application or use of any information exchanged or transferred between the Parties under this Arrangement shall be the responsibility of the receiving Party, and the transmitting Party does not warrant the suitability of such information for any particular use or application.
- E. Recognizing that some information of the type covered in this Arrangement is not available within the Parties to this Arrangement, but is available from other governmental institutions of Japan or the United States of America, each Party shall assist the other to the maximum extent possible by organizing visits and directing inquiries concerning such information to appropriate governmental institutions concerned. The foregoing shall not constitute a commitment of the other Party to furnish such information or to receive such visitors.

### **III. EXCHANGE AND USE OF INFORMATION**

#### **A. General**

The Parties support the widest possible dissemination of information provided or exchanged under this Arrangement, subject to the requirements of each Party's national laws, regulations, and policies and the need to protect proprietary and other confidential or privileged information, and subject to the provisions of the Intellectual Property Rights Annex, which is an integral part of this Arrangement.

#### **B. Definitions**

1. The term "information" means unclassified nuclear energy-related regulatory, nuclear safety, physical protection, waste management, radiological safety, environmental effects, scientific, or technical data, including information on results or methods of assessment, research,

and any other knowledge provided, created, or exchanged under this Arrangement.

2. The term "proprietary information" means information made available under this Arrangement that contains trade secrets or other privileged or confidential commercial information (such that the person having the information may derive a commercial benefit from it or may have a commercial advantage over those who do not have it), and may only include information that:
  - a. has been held in confidence by its owner;
  - b. has not been transmitted by the owner to other entities (including the receiving Party), except on the basis that it be held in confidence;
  - c. is not otherwise available to the receiving Party from another source without restriction on its further dissemination; and
  - d. is not already in the possession of the receiving Party.
3. The term "other confidential or privileged information" means information, other than "proprietary information," that has been transmitted and received in confidence under this Arrangement and is protected from public disclosure under the laws, regulations, or policies of the country of the Party providing the information.

C. Marking Procedures for Documentary Proprietary Information

A Party receiving documentary proprietary information pursuant to this Arrangement shall respect the privileged nature of such information, provided that such proprietary information is clearly marked with the following (or substantially similar) restrictive legend:

"This document contains proprietary information furnished in confidence under an Arrangement dated September 14, 2015, between the United States Nuclear Regulatory Commission and the Nuclear Regulation Authority of Japan and shall not be disseminated outside these organizations, their consultants, contractors, and licensees, or concerned departments and agencies of the Government of the United States and the Government of Japan, without the prior written approval of (name of transmitting Party). This notice shall be marked on each page of any reproduction hereof, in whole or in part. These limitations shall automatically terminate when the proprietary information is disclosed by the owner without restriction."

This restrictive legend shall be respected by the Parties to this Arrangement. Proprietary information bearing this restrictive legend shall not be made public or otherwise disseminated in any manner unspecified or contrary to the terms of this Arrangement without the prior written consent of the transmitting Party. Proprietary information bearing this restrictive legend shall not be used by the receiving Party or its contractors and consultants for any commercial purposes

without the prior written consent of the transmitting Party.

D. Dissemination of Documentary Proprietary Information

1. In general, proprietary information received under this Arrangement may be disseminated by the receiving Party without prior consent to persons within or employed by the receiving Party, and to concerned Government departments and Government agencies in the country of the receiving Party, provided:
  - a. such dissemination is made on a case-by-case basis; and
  - b. such proprietary information bears the restrictive legend appearing in Section III.C. of this Arrangement.
2. Proprietary information received under this Arrangement may be disseminated by the receiving Party without prior consent to contractors and consultants of the receiving Party located within the geographical limits of that Party's country, provided:
  - a. that the proprietary information is used by such contractors and consultants only for work within the scope of their contracts with the receiving Party relating to the subject matter of the proprietary information, and shall not be used by such contractors and consultants for any other private commercial purposes;
  - b. that such dissemination is made on a case-by-case basis to contractors and consultants who have executed a non-disclosure agreement; and
  - c. that such proprietary information shall bear the restrictive legend appearing in Section III.C. of this Arrangement.
3. With the prior written consent of the Party furnishing proprietary information under this Arrangement, the receiving Party may disseminate such proprietary information more widely than otherwise permitted under the terms set forth in this Arrangement. The Parties shall endeavor to grant such approval to the extent permitted by their respective national laws, regulations, and policies, provided:
  - a. that the entities receiving proprietary information under this Section III.D.3. of this Arrangement, including domestic organizations permitted or licensed by the receiving Party to construct or operate nuclear production or utilization facilities, or to use nuclear materials and radiation sources, have executed a non-disclosure agreement;
  - b. that the entities receiving proprietary information under this Section III.D.3. of this Arrangement, including domestic organizations permitted or licensed by the receiving Party to construct or operate nuclear production or utilization facilities,

shall not use such proprietary information for any private commercial purposes; and

- c. that those entities receiving proprietary information under this Section III.D.3. of this Arrangement that are domestic organizations permitted or licensed by the receiving Party, agree to use the proprietary information only for activities carried out under or within the terms of their specific permit or license.

E. Marking Procedures for Other Confidential or Privileged Information of a Documentary Nature

A Party receiving under this Arrangement other confidential or privileged information shall respect its confidential nature, provided such information is clearly marked so as to indicate its confidential or privileged nature and is accompanied by a statement indicating:

- 1. that the information is protected from public disclosure by the government of the transmitting Party; and
- 2. that the information is transmitted under the condition that it be maintained in confidence.

F. Dissemination of Other Confidential or Privileged Information of a Documentary Nature

Other confidential or privileged information may be disseminated in the same manner as that set forth in Section III.D, "Dissemination of Documentary Proprietary Information."

G. Non-Documentary Proprietary or Other Confidential or Privileged Information

Non-documentary proprietary or other confidential or privileged information provided in seminars and other meetings organized under this Arrangement, or information arising from the attachments of staff, use of facilities, or joint projects, shall be treated by the Parties according to the principles specified for documentary information under this Arrangement; provided, however, that the Party communicating such proprietary or other confidential or privileged information has placed the recipient on notice as to the character of the information communicated.

H. Consultation

If, for any reason, one of the Parties becomes aware that it will be, or may reasonably be expected to become, unable to meet the non-dissemination provisions of this Arrangement, it shall immediately inform the other Party. The Parties shall thereafter consult to define an appropriate course of action.

I. Other

Nothing contained in this Arrangement shall preclude a Party from using or

disseminating information received without restriction by a Party from sources outside of this Arrangement.

#### IV. FINAL PROVISIONS

- A. Nothing contained in this Arrangement including the Intellectual Property Rights Annex shall require either Party to take any action that would be inconsistent with its existing laws, regulations, or policy directives. Should any conflict arise between the terms of this Arrangement and those laws, regulations, or policy directives, the Parties shall consult before any action is taken. No nuclear information related to proliferation-sensitive technologies shall be exchanged under this Arrangement.
- B. Unless otherwise agreed, all costs resulting from cooperation pursuant to this Arrangement shall be the responsibility of the Party that incurs them. The ability of the Parties to carry out their obligations is subject to the appropriation of funds by the appropriate governmental authority and to the laws, regulations, and policies applicable to the Parties.
- C. Cooperation under this Arrangement shall be in accordance with the laws and regulations of the Parties. Any dispute or questions between the Parties concerning the interpretation or application of this Arrangement shall be settled by mutual consent of the Parties.
- D. This Arrangement shall enter into force upon signature and, subject to paragraph F of this Section, shall remain in force for a period of five years. It may be extended for a further period of time by written agreement of the Parties.
- E. The Arrangement may be amended at any time by written agreement of both of the Parties, provided the amendments are not contrary to the Agreement, the Exchange of Notes, and the law and regulations of the respective countries. The amending instrument shall specify the date upon which the amendment shall become effective.
- F. Either Party may terminate this Arrangement by providing the other Party written notice at least one hundred eighty (180) days prior to its intended date of termination.

DONE, in duplicate, in the English language.

AUTHORITY OF JAPAN

  
Shunichi Tanaka, Chairman

Date:

Sep. 10, 2015

Place: Tokyo, Japan

## **Intellectual Property Rights Annex**

### **I. General Obligation**

The Parties shall ensure adequate and effective protection of intellectual property created or furnished under this Arrangement and relevant implementing arrangements. Rights to such intellectual property shall be allocated as provided in this Annex.

### **II. Scope**

- A. This Annex is applicable to all cooperative activities undertaken pursuant to this Arrangement, except as otherwise specifically agreed by the Parties or their designees.
- B. For purposes of this Arrangement, "intellectual property" shall mean the subject matter listed in Article 2 (viii) of the Convention Establishing the World Intellectual Property Organization, done at Stockholm, July 14, 1967, and may include other subject matter as agreed by the Parties.
- C. Each Party shall ensure, through contracts or other legal means with its own participants, if necessary, that the other Party can obtain the rights to intellectual property allocated in accordance with this Annex. This Annex does not otherwise alter or prejudice the allocation between a Party and its nationals, which shall be determined by that Party's laws and practices.
- D. Except as otherwise provided in this Arrangement, disputes concerning intellectual property arising under this Arrangement shall be resolved through discussions between the concerned participating institutions, or, if necessary, the Parties or their designees. Upon mutual agreement of the Parties, a dispute shall be submitted to an arbitral tribunal for binding arbitration in accordance with the applicable rules of international law. Unless the Parties or their designees agree otherwise in writing, the arbitration rules of UNCITRAL shall govern.
- E. Termination or expiration of this Arrangement shall not affect rights or obligations under this Annex.

### **III. Allocation of Rights**

- A. Each Party shall be entitled to a non-exclusive, irrevocable, royalty-free license in all countries to translate, reproduce, and publicly distribute scientific and technical journal articles, reports, and books directly arising from cooperation under this Arrangement. All publicly distributed copies of a copyrighted work prepared under this provision shall indicate the names of the authors of the work unless an author explicitly declines to be named.
- B. Rights to all forms of intellectual property, other than those rights described in paragraph III.A. above, shall be allocated as follows:
  - (1) Visiting researchers shall receive rights, awards, bonuses and royalties in

accordance with the policies of the host institution.

- (2) (a) Any intellectual property created by persons employed or sponsored by one Party under cooperative activities other than those covered by paragraph III.(B)(1), above, shall be owned by that Party. Intellectual property created by persons employed or sponsored by both Parties shall be jointly owned by the Parties. In addition, each creator shall be entitled to awards, bonuses, and royalties in accordance with the policies of the institution employing or sponsoring that person.

(b) Unless otherwise agreed in an implementing or other arrangement, each Party shall have within its territory a right to exploit or license intellectual property created in the course of the cooperative activities.

(c) The rights of a Party outside its territory shall be determined by mutual agreement considering the relative contributions of the Parties and their participants to the cooperative activities, the degree of commitment in obtaining legal protection and licensing of the intellectual property, and such other factors deemed appropriate.

(d) Notwithstanding paragraphs III.B(2)(a) and (b) above, if either Party believes that a particular project is likely to lead to or has led to the creation of intellectual property not protected by the laws of the other Party, the Parties shall immediately hold discussions to determine the allocation of rights to the intellectual property. If an Arrangement cannot be reached within three (3) months of the date of the initiation of the discussions, cooperation on the project in question shall be terminated at the request of either Party. Creators of intellectual property shall nonetheless be entitled to awards, bonuses, and royalties as provided in paragraph III.B(2)(a) of this Arrangement.

(e) For each invention made under any cooperative activity, the Party employing or sponsoring the inventor(s) shall disclose the invention promptly to the other Party together with any documentation and information necessary to enable the other Party to establish any rights to which it may be entitled. Either Party may ask the other Party in writing to delay publication or public disclosure of such documentation or information for the purpose of protecting its rights in the invention. Unless otherwise agreed in writing, the delay shall not exceed a period of six (6) months from the date of disclosure by the inventing Party to the other Party.

#### **IV. Business Confidential Information**

In the event that information identified in a timely fashion as business-confidential is furnished or created under this Arrangement, each Party and its participants shall protect such information in accordance with applicable laws, regulations, and administrative practices. Information may be identified as "business-confidential" if a person having the information may derive an economic benefit from it or may obtain a competitive advantage over those who do not have it, and the information is not generally known or publicly available from other sources, and the owner has not previously made the information available without imposing in a timely manner an obligation to keep it confidential.
