## **NOTICE**

### **Message to our Diplomatic Colleagues Regarding the Explosions at Boston Marathon**

The Department thanks you for your kind words of support and patience with us as we deal with the aftermath of the bombings at the Boston Marathon. Many of you are very concerned about receiving information regarding the citizenship of the many injured individuals. Our colleagues have personally visited the major emergency rooms and hospitals where the wounded were taken and checked the lists for any injured foreign nationals. While there were a few foreign nationals injured, the number is extremely low and those embassies/consulates have been notified directly. If you have not received notification regarding an injured citizen, then none of your citizens were among those listed as injured. If you have any additional questions please contact the Office of Foreign Missions using the contact information below.
