The Government of the United States of America and the Government of the United Mexican States ("the Parties"):

Convinced of the importance of the conservation, protection and enhancement of their environments and the essential role of cooperation in these areas in achieving sustainable development for the well-being of present and future generations;

Recognizing the bilateral nature of many transboundary environmental issues, and that such issues can be most effectively addressed jointly;

Acknowledging that the border region of the United States and Mexico is experiencing environmental problems that must be addressed in order to promote sustainable development;

Recognizing the need for environmental infrastructure in the border region, especially in the areas of water pollution, wastewater treatment, municipal solid waste, and related matters;

Affirming that, to the extent practicable, environmental infrastructure projects should be financed by the private sector, but that the urgency of the environmental problems in the border region requires that the Parties be prepared to assist in supporting these projects;

Affirming that, to the extent practicable, environmental infrastructure projects in the border region should be operated and maintained through user fees paid by polluters and those who benefit from the projects, and should be subject to local or private control;

Recognizing that there is a need to establish an organization to strengthen cooperation among interested parties and to facilitate the financing, construction, operation and maintenance of environmental infrastructure projects in the border region and to review from time to time the efficiency and effectiveness of that organization;

Desiring to integrate the operations of the Border Environment Cooperation Commission into the North American Development Bank and have the Commission henceforth operate as a standing subsidiary component within the Bank;

Affirming the desirability of encouraging increased investment in the environmental infrastructure in the border region, whether or not such investment is made under the auspices of this Agreement;

Convinced of the need to collaborate with states and localities, nongovernmental organizations, and other members of the public in the effort to address environmental problems in the border region;

Seeking to assist community adjustment and investment in the United States and Mexico;

Reaffirming the importance of the environmental goals and objectives embodied in the Agreement on Cooperation for the Protection and Improvement of the Environment in the Border Area, signed at La Paz, Baja California Sur, August 14, 1983; and

Wishing to follow up on the goals and objectives of the North American Free Trade Agreement, signed at Washington, Ottawa, and Mexico December 8, 11, 14, and 17, 1992, and the North American Agreement on Environmental Cooperation, signed at Mexico, Washington, and Ottawa September 8, 9, 12, and 14, 1993;

Have agreed as follows:

CHAPTER I • INTRODUCTORY ARTICLE

The Parties agree to establish the North American Development Bank (the "Bank") and the Border Environment Cooperation Commission (the "Commission"), which shall function as a standing subsidiary component within the Bank and shall be a fully integrated part of the Bank. The Bank shall operate in accordance with the following provisions:

CHAPTER II • NORTH AMERICAN DEVELOPMENT BANK

Article I • Purposes and Functions

Section 1. Purposes

The purposes of the Bank shall be:

- (a) to provide financing for projects certified by the Board of Directors in accordance with Articles I and II of Chapter III, and, as the Board of Directors deems appropriate, to otherwise assist the Commission in fulfilling its purposes and functions;
- (b) to provide financing endorsed by the United States, as appropriate, for community adjustment and investment in support of the purposes of the North American Free Trade Agreement; and
- (c) to provide financing endorsed by Mexico, as appropriate, for community adjustment and investment in support of the purpose of the North American Free Trade Agreement.

Section 2. Functions

To implement its purposes, the Bank shall utilize its own capital resources, funds raised by it in financial markets, and other available resources and shall fulfill the following functions:

- (a) to promote the investment of public and private capital contributing to its purposes;
- (b) to encourage private investment in projects, enterprises, and activities contributing to its purposes, and to supplement private investment when private capital is not available on reasonable terms and conditions; and
- (c) to provide, under the direction of the Board of Directors, technical and other assistance for the financing and the implementation of the plans and projects.

In carrying out its functions, the Bank shall cooperate as appropriate with national and international institutions and with private sources supplying investment capital.

Article II • Capital of the Bank

Section 1. Authorized Capital

- (a) The authorized capital stock of the Bank initially shall be in the amount of \$3,000,000,000 in United States dollars and shall be divided into 300,000 shares having a par value of \$10,000 each, which shall be available for subscription by the Parties in accordance with Section 2 of this Article.
- (b) The authorized capital stock shall be divided into paid-in shares and callable shares. \$450,000,000 shall be paid-in shares, and \$2,550,000,000 shall be callable for the purposes specified in Section 3 (d) of this Article.
- (c) The authorized capital stock may be increased when the directors from the federal governments of the Parties on the Board of Directors by a unanimous

vote deem it advisable, subject to the domestic legal requirements of the Parties.

Section 2. Subscription of Shares

- (a) Each Party shall subscribe to shares of the capital stock of the Bank. The number of shares to be subscribed by the Parties shall be those set forth in Annex A of this Agreement, which specifies the obligation of each Party as to both paid-in and callable capital.
- (b) Shares of capital stock subscribed by the Parties shall be issued at par, unless the Board of Directors decides in special circumstances to issue them on other terms.
- (c) The liability of the Parties on capital shares shall be limited to the unpaid portion of their issue price.
- (d) Shares of capital stock shall not be pledged or encumbered in any manner, and they shall be transferable only to the Bank.

Section 3. Payment of Subscriptions

Payment of the subscriptions to the capital stock of the Bank as set forth in Annex A shall be made as follows:

- (a) As soon as possible after this Agreement enters into force pursuant to Article I of Chapter V, but no later than thirty days thereafter, each Party shall deposit with the Bank an Instrument of Subscription in which it agrees to pay in either Party's currency to the Bank the amount of paid-in capital set forth for it in Annex A, and to accept the obligations of callable shares ("Unqualified Subscription"). Payment of the paid-in capital shall be due according to a schedule to be established by the Board of Directors after entry into force of this Agreement.
- (b) Notwithstanding the provisions of paragraph (a) of this Section regarding Unqualified Subscriptions, as an exceptional case, a Party may deposit an Instrument of Subscription in which it agrees that payment of all installments of paid-in capital, and its obligations with respect to all callable shares, are subject to subsequent budgetary legislation ("Qualified Subscription"). In such an instrument, the Party shall undertake to seek to obtain the necessary legislation to pay the full amount of paid-in capital and to accept the full amount of corresponding obligations for callable shares, by the payment dates determined in accordance with paragraph (a) of this Section. Payment of an installment due after any such date shall be made within sixty days after the requisite legislation has been obtained.
- (c) If any Party which has made a Qualified Subscription has not obtained the legislation to make payment in full of any installment (or to accept obligations in respect of callable shares) by the dates determined in accordance with paragraph (a) of this Section, then a Party which has paid the corresponding installment on time and in full, may, after consultation with the Board of Directors, direct the Bank in writing to restrict commitments against that installment. That restriction shall not exceed the percentage which the unpaid portion of the installment, due from the Party that has made the Qualified Subscription, bears to the entire amount of the installment to be paid by the Party, and shall be in effect only for the time that unpaid portion remains unpaid.
- (d) The callable portion of the subscription for capital shares of the Bank shall be subject to call only when required to meet the obligations of the Bank created under Article III, Sections 2 (b) and (c), of this Chapter on borrowings of funds for inclusion in the Bank's capital resources or guarantees chargeable to such resources. In the event of such a call, payment shall be made in either Party's currency. Calls on unpaid subscriptions shall be uniform in percentage on all shares.

Section 4. Capital Resources

As used in this Chapter, the term "capital resources" of the Bank shall be deemed to include the following:

- (a) authorized capital, including both paid-in and callable shares, subscribed pursuant to Sections 2 and 3 of this Article;
- (b) all funds raised by borrowings under the authority of Article VI, Section 1(a), of this Chapter to which the commitment set forth in Section 3(d) of this Article is applicable;
- (c) all funds received in repayment of loans made with the resources indicated in paragraphs (a) and (b) of this Section;
- (d) all income derived from loans made from the aforementioned funds or from guarantees to which the commitment set forth in Section 3(d) of this Article is applicable; and
- (e) all other income derived from any of the resources mentioned above.

Article III • General Operations

Section 1. Use of Resources

The resources and facilities of the Bank shall be used exclusively to implement the purposes and functions enumerated in Article I of this Chapter and the purpose and functions enumerated in Article I of Chapter III.

Section 2. Methods of Making or Guaranteeing Loans

Subject to the conditions stipulated in this Article, the Bank may make or guarantee loans to either Party, or any agency or political subdivision thereof, and to any entity in the territory of a Party, in any of the following ways:

- (a) by making or participating in direct loans with funds corresponding to the unimpaired paid-in capital and to its reserves and undistributed surplus;
- (b) by making or participating in direct loans with funds raised by the Bank in capital markets, or borrowed or acquired in any other manner, for inclusion in the capital resources of the Bank; and
- (c) by guaranteeing in whole or in part loans made to, or securities issued in connection with, projects.

Section 3. Grants and Technical Assistance

(a) Grants

- (1) Subject to the conditions stipulated in this Article, the Bank may make grants for environmental projects with funds from the Bank's undistributed surplus to either Party, or any agency or political subdivision thereof, and to any entity in the territory of a Party for purposes specified in Article I, Section 1(a), of this Chapter, as long as the benefited projects fulfill the eligibility criteria established by the Board of Directors and are consistent with the rules and conditions specified in Section 11 of this Article.
- (2) Such grants shall not be subject to a credit operation unless otherwise determined by the Board of Directors and must be aligned with the Bank's purposes and functions.

(b) Technical Assistance

- (1) The Bank shall provide technical assistance for projects and actions with environmental impact in the border area in accordance with Article I, Section 2(c) of this Chapter and subject to the budget approved by the Board of Directors.

- (2) Technical assistance may be in-kind or in the form of grants and may be provided on a reimbursable or non-reimbursable basis. Technical assistance shall not be subject to a credit operation unless otherwise determined by the Board of Directors and must be aligned with the Bank's purposes and functions.
- (3) Financing of technical assistance shall be explicit within the budget of the Bank.
- (4) In addition, the Parties may provide additional funds for the provision of technical assistance, subject to the availability of appropriated funds and in accordance with their domestic legal requirements, for projects and actions that are approved by the Board of Directors.

Section 4. Limitations on Operations

The total amount outstanding of loans and guarantees made by the Bank in its operations shall not at any time exceed the total amount of the unimpaired subscribed capital of the Bank, plus the unimpaired reserves and undistributed surplus included in the capital resources of the Bank, as defined in Article II, Section 4, of this Chapter, exclusive of income on the capital resources that is assigned by decision of the Board of Directors to reserves not available for loans or guarantees.

Section 5. Direct Loan and Grant Financing

In making grants or in making direct loans or participating in them, the Bank may provide financing in the currencies of the Parties to meet the costs and expenses related to the purposes of the grant or loan.

Section 6. Rules and Conditions for Making or Guaranteeing Loans

- (a) The Bank may make or guarantee loans, subject to the following rules and conditions:
 - (1) in considering a request for a loan or a guarantee, the Bank shall take into account the ability of the borrower to obtain the loan from private sources of financing on terms which, in the opinion of the Bank, are reasonable for the borrower, taking into account all pertinent factors;
 - (2) in making or guaranteeing a loan, the Bank shall pay due regard to prospects that the borrower and its guarantor, if any, will be in a position to meet their obligations under the loan contract;
 - (3) in the opinion of the Bank, the rate of interest, other charges and the schedule for repayment of principal are appropriate for the purposes or project in question; and
 - (4) in guaranteeing a loan made by other investors, the Bank shall receive suitable compensation for its risk.
- (b) In addition to the rules and conditions set forth in paragraph (a) of this Section, the following rules and conditions shall apply to loans or guarantees made pursuant to a certification from the Board of Directors in accordance with Articles I and II of Chapter III:
 - (1) Bank management shall have submitted a detailed financial proposal to the Board of Directors, and the Board of Directors shall have certified the project relating to such proposal,
 - (2) in approving a loan or guarantee for a project, the Board of Directors shall find that the project is economically/financially sound, and pay due regard to the prospects that the project will generate sufficient revenues, by user fees or otherwise, to be self-sustaining or that funds will be available from other sources to meet debt servicing obligations; and
 - (3) loans made or guaranteed by the Bank shall be for financing specific projects.

Section 7. Optional Conditions for Making or Guaranteeing Loans

- (a) In the case of loans or guarantees of loans to nongovernmental entities, the Bank may, when it deems it advisable, require that the Party in whose territory the project is to be carried out, or a public institution or a similar agency of the Party acceptable to the Bank, guarantee the repayment of the principal and the payment of interest and other charges on the loan.
- (b) The Bank may attach such other conditions to the making of loans or guarantees as it deems appropriate.

Section 8. Use of Proceeds

- (a) The Bank shall impose no condition that the proceeds of a loan guaranteed or made, or a grant made, for the purposes specified in Article I, Section 1(a), of this Chapter shall be spent in the territory of either Party.
- (b) The Bank shall take the necessary measures to ensure that the proceeds of any loan made, guaranteed, or participated in, or any grant made, by the Bank are used only for the purposes for which the loan was granted, or the grant was made, with due attention to considerations of economy and efficiency.

Section 9. Terms for Direct Loans

Direct loan contracts made by the Bank in conformity with Sections 5 and 6 of this Article shall establish:

- (a) All the terms and conditions of each loan, including among others, provision for payment of principal, interest and other charges, maturities, and dates of payment; and
- (b) The currency or currencies in which payment shall be made to the Bank.

Section 10. Terms for Guarantees

- (a) In making any guarantee pursuant to Section 2(c) of this Article, the Bank shall charge a guarantee fee, at a rate determined by the Bank, payable periodically on the amount of the loan outstanding.
- (b) Guarantee contracts concluded by the Bank shall provide that the Bank may terminate its liability with respect to interest if, upon default by the borrower and by the guarantor, if any, the Bank offers to purchase, at par and interest accrued to a date designated in the offer, the bonds or other obligations guaranteed.
- (c) In issuing guarantees, the Bank shall have power to determine any other terms and conditions.

Section 11. Rules and Conditions for Making Grants

- (a) Before the Board of Directors may approve a grant (excluding technical assistance expenditures) for an environmental project in accordance with the purposes specified in Article I, Section 1(a) of this Chapter, (i) the Bank management shall have submitted a detailed financial proposal to the Board of Directors, and (ii) the Board of Directors shall have certified the project relating to such proposal in accordance with Articles I and II of Chapter III.
- (b) The Bank may attach such other conditions to the making of grants for the purposes specified in Article I, Section 1(a) of this Chapter as it deems appropriate.

Section 12. Relationship with Other Entities

- (a) The Bank may make arrangements or agreements with other entities, including multilateral development banks, regarding facilities, personnel and services and arrangements for reimbursement of administrative expenses paid by either entity on behalf of the other.

- (b) Nothing in this Agreement shall make the Bank liable for the acts or obligations of an entity referred to in paragraph (a) of this Section, or any such entity liable for the acts or obligations of the Bank.

Section 13. Budget

The Managing Director shall submit to the Board of Directors, for its approval, an annual budget for the Bank. The submission shall include the budget proposals prepared by the Chief Environmental Officer pursuant to Article III, Section 3, of Chapter III, and related work plan.

Section 14. Relationship with the Public

The Bank shall establish procedures in English and Spanish:

- (a) ensuring, to the extent possible, public availability of documentary information on all projects for which a request for assistance or an application for certification is made consistent with Article II, Sections 1 and 2, of Chapter III;
- (b) for giving written notice of and providing members of the public reasonable opportunity to comment on any general guidelines which may be established by the Commission for environmental infrastructure projects for which it provides assistance, and on all applications for certification received by the Commission; and
- (c) whereby the Board of Directors could receive complaints from groups affected by projects that the Commission has assisted or recommended for certification and could obtain independent assessments as to whether the terms of Chapter III or the procedures established by the Board of Directors pursuant to Chapter III have been observed.

Section 15. Limitations on Disclosure

- (a) Notwithstanding any other provision of this Chapter, the Bank, including its officers and staff, shall not make public information with respect to which a Party has notified the Bank that public disclosure would impede its law enforcement.
- (b) The Bank shall establish regulations to protect from disclosure business or proprietary information and information the disclosure of which would violate personal privacy or the confidentiality of government decision-making.
- (c) A state or locality, public entity, or private investor that requests assistance or submits an application to the Bank may request that information contained therein be designated confidential by the Bank, and may request an advance determination from the Bank as to whether such information is entitled to confidentiality pursuant to subsection (b) above. If the Bank determines that such information is not entitled to confidentiality pursuant to subsection (b) above, the state or locality, public entity, or private investor may withdraw its request or application prior to further action by the Bank. Upon such withdrawal, the Bank shall not keep any copy of the information and shall not make public that it received such a request or application.
