**Agreement Between the
UNITED STATES OF AMERICA
and ANTIGUA AND BARBUDA**

Aerial Interception Assistance

Effectuated by Exchange of Notes at Bridgetown and St. John's
October 7, 2011 and April 18, 2012
Entered into force April 18, 2012

NOTE BY THE DEPARTMENT OF STATE

Pursuant to Public Law 89—497, approved July 8, 1966
(80 Stat. 271; 1 U.S.C. 113)—

“ . . .the Treaties and Other International Acts Series issued under the authority of the Secretary of State shall be competent evidence . . . of the treaties, international agreements other than treaties, and proclamations by the President of such treaties and international agreements other than treaties, as the case may be, therein contained, in all the courts of law and equity and of maritime jurisdiction, and in all the tribunals and public offices of the United States, and of the several States, without any further proof or authentication thereof.”

No. 0200

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of the Government Antigua and Barbuda, and acknowledges receipt of Antigua and Barbuda's Note number 167, dated April 18, 2012 and has the honor to confirm that an Aerial Intercept Assistance Agreement ("Agreement") entered into force between our two countries on April 18, 2012, with terms as set forth in the attachment to the Note of the United States number 1272, dated October 7, 2011, and restated in the Note of Antigua and Barbuda number 167.

The Embassy of the United States of America avails itself of this opportunity to renew to the Ministry of Foreign Affairs of the Government Antigua and Barbuda the assurances of its highest consideration.

Embassy of the United States of America,
Bridgetown, April 9, 2014.

DIPLOMATIC NOTE

No. 1272

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of Antigua and Barbuda, and has the honor to raise with the Government of Antigua and Barbuda a memorandum of understanding concerning the Cooperative Sensor and Information Integration (CSII) program. Before beginning Antigua and Barbuda's participation in the CSII program, United States law requires that Antigua and Barbuda must also conclude an Aerial Intercept Assistance Agreement (AIAA).

Further to the Charge d'Affaires conversation with the Minister of National Security of Antigua and Barbuda during the week of October 3, the United States Embassy Bridgetown presents the Government of Antigua and Barbuda a draft of the Cooperative Sensor and Information Integration Program as well as the terms of mutual understanding for the AIAA. The Embassy of the United States of America provides the Government of Antigua and Barbuda with the two proposed attached agreements.

The Embassy of the United States of America avails itself of this opportunity to renew to the Ministry of Foreign Affairs of Antigua and Barbuda the assurances of its highest consideration.

Embassy of the United States of America,

Bridgetown, 7 October 2011.

**COORDINATING ARRANGEMENT BETWEEN THE U.S.
GOVERNMENT AND ANTIGUA AND BARBUDA CONCERNING THE
COOPERATIVE SENSOR AND INFORMATION INTEGRATION
PROGRAM**

The U.S. Government and the Government of Antigua and Barbuda, collectively referred to herein as the "Participants" or "Participant" singularly, desiring to increase regional cooperation and domain awareness have reached the following understandings:

Section 1: Purpose

This Coordinating Arrangement is intended to enable the Participants to share information through the Cooperative Sensor and Information Integration System.

The Cooperative Sensor and Information Integration System is an internet-based, information-sharing network that allows the Participants to fuse data on airborne, maritime, and ground tracks in order to develop a common operating picture. The fused data is shared as part of a network designed to support multiple mission areas and objectives, such as counter-illicit trafficking, humanitarian assistance, disaster relief, maritime and flight safety, and search and rescue. This Coordinating Arrangement does not create any rights or benefits, substantive or procedural, against the Participants, their agencies, personnel, or any other person. Moreover, this Coordinating Arrangement does not impose any legally binding requirements on the Participants.

This Coordinating Arrangement does not alter the Participants' responsibilities

under the Aerial Interception Assistance Agreement (AIAA), effected by an exchange of notes at a date and location to be determined, or any other applicable international agreements. In accordance with their obligations under the AIAA, participating nations are not to use information exchanged pursuant to this Coordinating Arrangement to damage, destroy, disable or threaten civil aircraft in service.

Section 2: Radar and Sensor Data Access and Use

The Participants are to use the Cooperative Sensor Information and Integration system to access and share radar and sensor data with each other and other regional partners. The Participants, through the selective sharing application, are to have the ability to select the data the Participants desire to share; however, the Participants' intent is to maximize regional sharing.

Each Participant is not to share radar and sensor data originating from the other Participant with other countries other than data the other Participant selected expressly for sharing with other countries. All data sharing is to be done in accordance with the provisions of the AIAA. This Coordinating Arrangement does not limit a Participant's ability to share its own radar and sensor data with other countries through other means.

To manage the Cooperative Sensor Information and Integration system effectively,

the U.S. Government is to have unrestricted access to all data developed through the Cooperative Sensor Information and Integration system.

The Participants are not to charge each other or regional partners for use of the data.

Section 3: Radar and Sensor Integration

To increase domain awareness, the Participants may, as mutually approved, integrate Antigua and Barbuda radars and other sensors into the Cooperative Sensor Information and Integration system.

Section 4: Radar and Sensor Integration Equipment

If radar and other sensors are integrated into the Cooperative Sensor Information and Integration system, the U.S. Government may install and use in Antigua and Barbuda integration equipment, networking equipment, or both for the purpose of sharing data. The U.S. Government understands that the installed integration or network equipment is not to affect Antigua and Barbuda radar and sensor systems. Antigua and Barbuda is to provide the U.S. Government with adequate facilities to install the integration or networking equipment; access to commercial electrical power; and access to the integration or networking equipment for maintenance purposes. In addition, Antigua and Barbuda is to continue to be responsible for

the operation and maintenance of its radars and sensors.

Section 5: Radar and Sensor Integration Equipment Ownership

The U.S. Government is to retain ownership of all U.S. Government property.

Antigua and Barbuda is not to alter or use software provided by the U.S.

Government for any purpose not described in this Coordinating Arrangement.

Section 6: Funding

Each Participant is responsible for funding its own expenses under this Coordinating Arrangement, including expenses related to the installation, operation, and maintenance of property owned by that Participant and expenses related to the integration and transmission (internet service) of radar and sensor data for its own use.

The Participants' financial contributions under this Coordinating Arrangement are subject to the availability of authorized and appropriated funds for these purposes in accordance with the respective national laws of the Participants. Nothing in this Coordinating Arrangement should be construed as the actual obligation, commitment, or the creation of a requirement for the obligation or commitment, of appropriated funds by the U.S. Government or any of its agents.

Section 7: Modification

This Coordinating Arrangement may be modified by the mutual consent of the Participants. The details of any such modification should be memorialized in writing and signed by both Participants.

Section 8: Commencement

This Coordinating Arrangement is to be effective on the date of the last signature.

Section 9: Duration

This Coordinating Arrangement is intended to remain in effect for a period of ten (10) years. Either Participant may end the Coordinating Arrangement, but should endeavor to provide the other Participant with a ninety-day written notice of its intent to do so. This Coordinating Arrangement may be extended by mutual consent of the Participants.

Aerial Intercept Assistance Agreement Model Reply to U.S. Government Diplomatic Note

The Government of Antigua and Barbuda presents its compliments to the Embassy of the United States of America, and has the honor to acknowledge the receipt of your Note Number 1272 of October 7, 2011, which reads as follows:

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of Antigua and Barbuda, and has the honor to raise with the Government of Antigua and Barbuda a memorandum of understanding concerning the Cooperative Sensor and Information Integration (CSII) program. Before beginning Antigua and Barbuda's participation in the CSII program, United States law requires that Antigua and Barbuda must also conclude an Aerial Intercept Assistance Agreement (AIAA).

Further to the Charge d'Affaires conversation with the Minister of National Security of Antigua and Barbuda during the week of October 3, the United States Embassy Bridgetown presents the Government of Antigua and Barbuda a draft of the Cooperative Sensor and Information Integration Program as well as the terms of mutual understanding for the AIAA.

The Embassy of the United States of America provides the Government of Antigua and Barbuda with the two proposed attached agreements.

Terms of Mutual Understanding for the Aerial Intercept Assistance Agreement:

The Government of the United States of America is willing to provide assistance in locating, identifying, tracking, and intercepting civil aircraft in Antigua and Barbuda airspace to facilitate the interruption of illicit drug trafficking routes and the arrest of illicit drug traffickers. In consideration of the ongoing, mutually beneficial relationship between our two Governments in the field of law enforcement efforts to combat illicit drug trafficking, the Embassy of the United States of America proposes on behalf of the Government of the United States of America as follows:

I. Definitions

The term "U.S. Government assistance" as used in this Note shall include, but not be limited to: funding; intelligence; information; radar data (including data

derived from the Cooperating Nation Information Exchange System ("CNIES") and the Cooperative Sensor and Information Integration Program ("CSII")); logistical support; command, control, and communications support; equipment; maintenance; and training provided by the Government of the United States of America.

The term "CNIES or CSII data" means data displaying the position of air and surface tracks of interest ("TOIs") based on geographic filters. The CNIES/CSII data includes both automatically-displayed Relocatable Over the Horizon Radar track information that has not been reviewed to ascertain the legal or illegal nature of the flight and TOIs that have been located and identified by other air surveillance systems or tracking aircraft as suspected narco-trafficking aircraft.

Consistent with Article 2 of the Convention for the Suppression of Unlawful Acts Against the Safety of Civil Aviation, done at Montreal, September 23, 1971, to which both the Government of the United States of America and the Government of Antigua and Barbuda are parties, the terms "in flight" and "in service" are used in this Note as follows:

(1) An aircraft is considered to be "in flight" at any time from the moment when all its external doors are closed following embarkation until the moment when any such door is opened for disembarkation; in the case of a forced landing, the flight shall be deemed to continue until the competent authorities take over responsibility for the aircraft and for persons and property on board.

(2) An aircraft is considered to be "in service" from the beginning of preflight preparation of the aircraft by ground personnel or by the crew for a specific flight until twenty-four hours after any landing; the period of service shall, in any event, extend for the entire period during which the aircraft is in flight as defined in paragraph (1) above.

The term "interception" means the act by a (host government) aircraft of approaching and remaining near an aircraft, with the goal of identifying that aircraft, and, if necessary, directing it back to its planned route, directing it beyond the borders of Antigua and Barbuda airspace, escorting it out of restricted, prohibited, or dangerous airspace, or instructing it to land.

II. Interception of Aircraft

The Government of Antigua and Barbuda shall, when intercepting civil aircraft in flight, consistently and strictly adhere to the safety procedures in Annex 2 to the Convention on International Civil Aviation, done at Chicago on December 7, 1944 (the "Chicago Convention") and amendments thereto. Further, the Government of Antigua and Barbuda shall ensure that all Government of Antigua and Barbuda personnel (whether in the air, in a command and control center, or elsewhere) involved in the interception of civil aircraft are familiar with such procedures. The Government of Antigua and Barbuda, when intercepting civil aircraft in flight, shall adhere to any relevant International Civil Aviation Organization ("ICAO") provisions on interception, including those contained in the Manual Concerning Interception of Civil Aircraft.

The Government of Antigua and Barbuda shall promulgate, throughout its civil aviation community via Notices to Airmen ("NOTAMs"), notice of the Government of (name country)'s policies on interception. These NOTAMs will inform pilots that the Government of Antigua and Barbuda will not damage, destroy, or disable any civil aircraft other than in self-defense, and they shall include adequate notice of the procedures that the Air Force of the Government of Antigua and Barbuda will use to order intercepted aircraft to land so that aviators are aware of the procedures and can conduct themselves accordingly. To the extent that a civil aircraft being intercepted by the Government of Antigua and Barbuda is intercepted because the Government of Antigua and Barbuda believes that the aircraft is primarily engaged in illicit drug trafficking, the Government of Antigua and Barbuda shall use the sorting criteria set forth below to determine the nature of the suspect aircraft.

The following factors should be considered in determining whether an aircraft is reasonably suspected of being primarily engaged in illicit drug trafficking:

- Did the aircraft fail to file a required flight plan?*
- Is it inexplicably flying outside the route designated in its approved flight plan?*
- Is it not using the appropriate transponder code?*
- Is it flying at an inexplicably low altitude?*
- Is it flying at night with its lights out?*
- Does the aircraft have false (or no) tail numbers?*
- Are the windows blacked out?*
- Does the physical description of the aircraft match the description of an aircraft previously used in illicit drug trafficking?*
- Is there intelligence information indicating that the aircraft is primarily engaged in illicit drug trafficking?*

- *Is the aircraft flying without permission in an Air Defense Identification Zone (if any)?*
- *Is the aircraft parked at night at a non-monitored air field without permission?*
- *Have all attempts to identify the aircraft failed?*
- *Has the aircraft inexplicably failed to respond to all attempts to communicate?*
- *Has the aircraft ignored the Government of Antigua and Barbuda orders?*
- *Have any objects been jettisoned from the aircraft?*
- *Is there any other information suggesting that the aircraft is reasonably suspected to be primarily engaged in illicit drug trafficking?*
- *Is there any information suggesting that the aircraft is not reasonably suspected to be primarily engaged in illicit drug trafficking?*

III. Non-Use of Weapons against Civil Aircraft

The Government of Antigua and Barbuda shall:

- (a) not damage, destroy, or disable any civil aircraft in service, and*
- (b) not threaten to damage, destroy, or disable any civil aircraft in service.*
- (i) This does not preclude the firing of warning shots as a signaling measure, using ammunition containing tracer rounds, in order to be sure that the pilot is aware that he or she has been intercepted.*
- (ii) Warning shots may be fired only from a position slightly ahead of abeam and parallel to the course of the intercepted aircraft to ensure that the intercepted aircraft is not in the line of fire. The aircraft firing the warning shots shall take all reasonable cautionary measures to avoid shooting the intercepted aircraft, any other aircraft in the vicinity, or persons or property on the ground. None of the commitments undertaken by the Government of Antigua and Barbuda in agreeing to these conditions are intended to preclude or limit the Government of Antigua and Barbuda ability to use weapons in the context of an act of self-defense.*

IV. Sharing of Information

The Government of Antigua and Barbuda shall not permit third parties access, without the specific written consent of the Embassy of the United States of America, to any information, data, or analysis that could be used for aerial interceptions that has been developed using U.S. Government assistance.

V. Non-Compliance with Conditions

\

In the event that the Government of Antigua and Barbuda fails to comply with any of the conditions contained herein, the Government of the United States of America will, in its discretion, suspend or terminate any and all U.S. Government assistance to the Government of Antigua and Barbuda related to the interception of civil aircraft.

If the foregoing is acceptable to the Government of Antigua and Barbuda, the Embassy of the United States of America has the honor to propose that this Note and your Note in reply shall constitute an agreement between our two Governments, which shall enter into force on the date of your reply."

The Embassy of the United States of America avails itself of this opportunity to renew to the Ministry of Foreign Affairs of Antigua and Barbuda the assurances of its highest consideration.

The Ministry of Foreign Affairs of the Antigua and Barbuda confirms that the foregoing is acceptable to the Government of Antigua and Barbuda and agrees that the Embassy's Note and this reply shall constitute an agreement between our two Governments that shall enter into force on the date of this reply.

Complimentary closing

Ministry of Foreign Affairs

GOVERNMENT OF ANTIGUA AND BARBUDA

167/2012

The Ministry of Foreign Affairs of Antigua and Barbuda presents its compliments to the Embassy of the United States of America, and has the honor to acknowledge the receipt of the Embassy's Note Verbale No. 1272, dated 7 October, 2011 which reads as follows:

BEGINS:

The Embassy of the United States of America presents its compliments to the Ministry of Foreign Affairs of Antigua and Barbuda, and has the honor to raise with the Government of Antigua and Barbuda a memorandum of understanding concerning the Cooperative Sensor and Information Integration (CSII) program. Before beginning Antigua and Barbuda's participation in the CSII program, United States law requires that Antigua and Barbuda must also conclude an Aerial Intercept Assistance Agreement (AIAA).

Further to the Charge d'Affaires conversation with the Minister of National Security of Antigua and Barbuda during the week of October 3, the United States Embassy Bridgetown presents the Government of Antigua and Barbuda a draft of the Cooperative Sensor and Information Integration Program as well as the terms of mutual understanding for the AIAA.

The Embassy of the United States of America provides the Government of Antigua and Barbuda with the two proposed attached agreements.

Terms of Mutual Understanding for the Aerial Intercept Assistance Agreement:

The Government of the United States of America is willing to provide assistance in locating, identifying, tracking, and intercepting civil aircraft in Antigua and Barbuda airspace to facilitate the interruption of illicit drug trafficking routes and the arrest of illicit drug traffickers. In consideration of the ongoing, mutually beneficial relationship between our two Governments in the field of law enforcement efforts to combat illicit drug trafficking, the Embassy of the United States of America proposes on behalf of the Government of the United States of America as follows:

I. Definitions

The term "U.S. Government assistance" as used in this Note shall include, but not be limited to: funding; intelligence; information; radar data (including data derived from the Cooperating Nation Information Exchange System ("CNIES") and the Cooperative Sensor and Information Integration Program ("CSII")); logistical support; command, control, and communications support; equipment; maintenance; and training provided by the Government of the United States of America.

The term "CNIES or CSII data" means data displaying the position of air and surface tracks of interest ("TOIs") based on geographic filters. The CNIES/CSII data includes both automatically-displayed Relocatable Over the Horizon Radar track information that has not been reviewed to ascertain the legal or illegal nature of the flight and TOIs that have been located and identified by other air surveillance systems or tracking aircraft as suspected narco-trafficking aircraft.

Consistent with Article 2 of the Convention for the Suppression of Unlawful Acts Against the Safety of Civil Aviation, done at Montreal, September 23, 1971, to which both the Government of the United States of America and the Government of Antigua and Barbuda are parties, the terms "in flight" and "in service" are used in this Note as follows:

(1) An aircraft is considered to be "in flight" at any time from the moment when all its external doors are closed following embarkation until the moment when any such door is opened for disembarkation; in the case of a forced landing, the flight shall be deemed to continue until the competent authorities take over responsibility for the aircraft and for persons and property on board.

(2) An aircraft is considered to be "in service" from the beginning of preflight preparation of the aircraft by ground personnel or by the crew for a specific flight until twenty-four hours after any landing; the period of service shall, in any event, extend for the entire period during which the aircraft is in flight as defined in paragraph (1) above.

The term "interception" means the act by a (host government) aircraft of approaching and remaining near an aircraft, with the goal of identifying that aircraft, and, if necessary, directing it back to its planned route, directing it beyond the borders of Antigua and Barbuda airspace, escorting it out of restricted, prohibited, or dangerous airspace, or instructing it to land.

II. Interception of Aircraft

The Government of Antigua and Barbuda shall, when intercepting civil aircraft in flight, consistently and strictly adhere to the safety procedures in Annex 2 to the Convention on International Civil Aviation, done at Chicago on December 7, 1944 (the "Chicago Convention") and amendments thereto. Further, the Government of Antigua and Barbuda shall ensure that all Government of Antigua and Barbuda personnel (whether in the air, in a command and control center, or elsewhere) involved in the interception of civil aircraft are familiar with such procedures. The Government of Antigua and Barbuda, when intercepting civil aircraft in flight, shall adhere to any relevant International Civil Aviation Organization ("ICAO") provisions on interception, including those contained in the Manual Concerning Interception of Civil Aircraft.

The Government of Antigua and Barbuda shall promulgate, throughout its civil aviation community via Notices to Airmen ("NOTAMs"), notice of the Government of Antigua and Barbuda's policies on interception. These NOTAMs will inform pilots

that the Government of Antigua and Barbuda will not damage, destroy, or disable any civil aircraft other than in self-defense, and they shall include adequate notice of the procedures that the Air Force of the Government of Antigua and Barbuda will use to order intercepted aircraft to land so that aviators are aware of the procedures and can conduct themselves accordingly. To the extent that a civil aircraft being intercepted by the Government of Antigua and Barbuda is intercepted because the Government of Antigua and Barbuda believes that the aircraft is primarily engaged in illicit drug trafficking, the Government of Antigua and Barbuda shall use the sorting criteria set forth below to determine the nature of the suspect aircraft.

The following factors should be considered in determining whether an aircraft is reasonably suspected of being primarily engaged in illicit drug trafficking:

- Did the aircraft fail to file a required flight plan?*
- Is it inexplicably flying outside the route designated in its approved flight plan?*
- Is it not using the appropriate transponder code?*
- Is it flying at an inexplicably low altitude?*
- Is it flying at night with its lights out?*
- Does the aircraft have false (or no) tail numbers?*
- Are the windows blacked out?*
- Does the physical description of the aircraft match the description of an aircraft previously used in illicit drug trafficking?*
- Is there intelligence information indicating that the aircraft is primarily engaged in illicit drug trafficking?*
- Is the aircraft flying without permission in an Air Defense Identification Zone (if any)?*
- Is the aircraft parked at night at a non-monitored air field without permission?*
- Have all attempts to identify the aircraft failed?*
- Has the aircraft inexplicably failed to respond to all attempts to communicate?*
- Has the aircraft ignored the Government of Antigua and Barbuda's orders?*
- Have any objects been jettisoned from the aircraft?*
- Is there any other information suggesting that the aircraft is reasonably suspected to be primarily engaged in illicit drug trafficking?*
- Is there any information suggesting that the aircraft is not reasonably suspected to be primarily engaged in illicit drug trafficking?*

III. Non-Use of Weapons against Civil Aircraft

The Government of Antigua and Barbuda shall:

- (a) Not damage, destroy, or disable any civil aircraft in service, and*
- (b) Not threaten to damage, destroy, or disable any civil aircraft in service.*
- (i) This does not preclude the firing of warning shots as a signaling measure, using ammunition containing tracer rounds, in order to be sure that the pilot is aware that he or she has been intercepted.*

(ii) Warning shots may be fired only from a position slightly ahead of abeam and parallel to the course of the intercepted aircraft to ensure that the intercepted aircraft is not in the line of fire. The aircraft firing the warning shots shall take all reasonable cautionary measures to avoid shooting the intercepted aircraft, any other aircraft in the vicinity, or persons or property on the ground. None of the commitments undertaken by the Government of Antigua and Barbuda in agreeing to these conditions are intended to preclude or limit the Government of Antigua and Barbuda's ability to use weapons in the context of an act of self-defense.

IV. Sharing of Information

The Government of Antigua and Barbuda shall not permit third parties access, without the specific written consent of the Embassy of the United States of America, to any information, data, or analysis that could be used for aerial interceptions that has been developed using U.S. Government assistance.

V. Non-Compliance with Conditions

In the event that the Government of Antigua and Barbuda fails to comply with any of the conditions contained herein, the Government of the United States of America will, in its discretion, suspend or terminate any and all U.S. Government assistance to the Government of Antigua and Barbuda related to the interception of civil aircraft.

If the foregoing is acceptable to the Government of Antigua and Barbuda, the Embassy of the United States of America has the honor to propose that this Note and your Note in reply shall constitute an agreement between our two Governments, which shall enter into force on the date of your reply."

The Embassy of the United States of America avails itself of this opportunity to renew to the Ministry of Foreign Affairs of Antigua and Barbuda the assurances of its highest consideration.

ENDS

To this end, the Ministry of Foreign Affairs of Antigua and Barbuda confirms that the foregoing is acceptable to the Government of Antigua and Barbuda and agrees that the Embassy's Note and this reply shall constitute an agreement between the Government of Antigua and Barbuda and the Government of the United States of America that shall enter into force on the date of this reply.

The Ministry of Foreign Affairs of Antigua and Barbuda avails itself of this opportunity to renew to the Embassy of the United States of America the assurances of its highest consideration.
