Private Sector Activities

Gilead

- Donated PrEP medicines for approximately 15,000 AGYW; the donation not only led to the expansion of PrEP among high-risk AGYW, but also enabled discussions with governments on PrEP policies - an example of catalytic progress towards policy development and new innovations.

Johnson & Johnson

- Conducted workshops to hear insights from AGYW on their needs to inform programming; market segmentation analytics and peer-to-peer programs have helped the DREAMS partnership understand the behaviors of AGYW and amplify their voices in a way that is most responsive to their needs.

Bill & Melinda Gates Foundation

- Brings neutrality and independence in measuring DREAMS results through implementation science research and impact evaluation studies.

ViiV Healthcare

- Provided capacity-building to community-based organizations to effectively work with and deliver services to AGYW.
