MEMO FOR:
AMBASSADOR SCOTT MARCIEL, BURMA
AMBASSADOR PATRICK MURPHY, CAMBODIA
AMBASSADOR KENNETH I. JUSTER, INDIA
CHARGÉ D’AFFAIRES HEATHER VARIAVA, INDONESIA
AMBASSADOR WILLIAM H. MOSER, KAZAKHSTAN
AMBASSADOR DONALD LU, KYRGYZ REPUBLIC
AMBASSADOR PETER M. HAMMOND, LAOS
AMBASSADOR RANDY BERRY, NEPAL
AMBASSADOR ERIN ELIZABETH-MCKEE, PAPUA NEW GUINEA
AMBASSADOR SUNG KIM, PHILIPPINES
AMBASSADOR JOHN M. POMMERSHEIM, TAJIKISTAN
AMBASSADOR MICHAEL DESOMBRE, THAILAND

SUBJECT: PEPFAR Asia Regional Operational Plan 2020 Approval

This memo represents the successful completion of the PEPFAR Asia Regional Operational Plan (ROP) 2020 planning, development and submission. PEPFAR Asia Regional, together with the partner government, civil society and multilateral partners, has planned and submitted a ROP 2020 in alignment with the directives from the ROP 2020 planning letter, data-driven decisions made during the in-country retreat, and agreements made during the planning meeting.

This memo serves as the approval memo for the PEPFAR Asia Regional Operational Plan 2020 with a total approved budget of $118,492,305, including all initiatives and applied pipeline, to achieve the targets and outcomes as listed in this memo and all appendices. Total budget is reflective of the following programming:

Approve a total FY 2021 outlay for COP/ROP 2020 implementation that does not exceed the total approved COP/ROP 2020 budget of $118,492,305. Any prior year funds that are not included within this COP/ROP 2020 budget and documented within this memo, its appendices and official PEPFAR data systems are not to be made available for execution and outlay during FY 2021 without additional written approval. The new FY 2020 funding and prior year funds approved within this memo as a part of the total COP/ROP 2020 budget are allocated to achieve specific results, outcomes and impacts as approved. All requested Operational Plan Updates and shifting of funds – either between mechanisms and partners, or to add additional funding to mechanisms and partners for execution in FY 2021 – must be submitted to and approved by S/GAC.

Approved funding will be made available to agencies for allocation to country platform to implement ROP 2020 programming and priorities as outlined below and in the appendix.

**Background**
This approval is based upon: the discussions that occurred between the country team, agency headquarters and S/GAC during the March 16-20th, 2020 virtual planning/approval meetings; the final COP/ROP 2020 submission, including all data submitted via official PEPFAR systems or within supplemental documents.

Program Summary

Funding and targets for Asia Regional’s Operational Plan 2020 will support PEPFAR Asia Regional’s vision in partnership with the 12 governments and people throughout the Asia Regional program, to work towards epidemic control by targeting testing to efficiently identify people living with HIV (PLHIV), ensuring all newly diagnosed PLHIV are immediately linked to treatment, and all PLHIV are retained on treatment and remain virally suppressed. ROP 2020 will work to maintain epidemic control by the end of FY 2021, working toward the ultimate goal across the region that 358,507 are on life-saving treatment by the end of FY 2021. The program for ROP 2020 will focus intensely on enrolling an additional 37,819 PLHIV on treatment in FY 2021 and ensuring viral load suppression in 305,376 clients across the region.

In ROP 20, the 12 countries within the PEPFAR Asia Regional Program have been categorized into three tiers based upon ROP 19 performance and progress toward epidemic control. The three tiers are: 1. Sustain the Gains (Burma, Cambodia, Kyrgyz Republic, Nepal, Tajikistan, and Thailand), 2. Accelerate and Achieve (Lao PDR, India) and 3. Maintenance/Protect the Investment (Indonesia, Kazakhstan, and Papua New Guinea). Since the Philippines is a new addition to the Asia Region Program, it will be considered separately from the current tier structure.

Tier 1: Sustain the Gains
Burma, Cambodia, Kyrgyz Republic, Nepal, Tajikistan, and Thailand PEPFAR teams will work aggressively to achieve and sustain UNAIDS 95-95-95 goals among key populations (KP) groups in priority locations, and closing the remaining gaps towards epidemic control. Country teams will continue to support high-impact interventions targeting gaps in the prevention and treatment cascades, while also reaching into high-risk networks to ensure appropriate prevention, testing, and treatment measures are in place to achieve viral load suppression (VLS). All countries will scale up best practices, including client-centered approaches implementing and expanding multi-month dispensing (MMD), tenofovir, lamivudine, and dolutegravir (TLD) transition, and TB preventative therapy (TPT). Community involvement in HIV services will be strengthened using: KP peer navigators in Burma; nurses and community-based workers in Kyrgyz Republic and Tajikistan to support adherence and improve retention; community volunteers and community anti-retroviral (ARV) dispensing in Cambodia; and strengthening PLHIV peer navigators and community monitoring in Nepal. The Kyrgyz Republic will add social network testing strategies for people who inject drugs (PWID) to expand achievements from index testing. Consolidating gains in continuous quality improvement (CQI) approaches with laboratory, services, and program data will continue with creation and expansion of monitoring and evaluation (M&E) dashboards, improvements in performance metrics and systems for better patient monitoring to reduce program loss and return patients to treatment in Burma and Thailand.

Tier 2: Accelerate and Achieve
In Lao PDR and India, the PEPFAR teams will accelerate country level goals and effective programs. Activities will focus on the highest burden and prevalence geographies. Both countries will increase efforts for case finding of hard-to-reach KPs and improve client experience and treatment outcomes to increase retention rates and reduced loss to follow up (LTFU). Working in concert with host governments and stakeholders such as The Global Fund to Fight AIDS, Tuberculosis and Malaria (GF), World Health Organization (WHO) The Joint United Nations Programme on HIV and AIDS (UNAIDS), civil society, India and Lao PDR will scale up quality, client-centered treatment options to impact adherence and retention, which include facility and community-based strategies for service delivery, including MMD and TLD transition.

Tier 3: Maintenance/Protect the Investment

In Indonesia, Kazakhstan, and Papua New Guinea, PEPFAR teams will focus on activities that support PLHIV currently on anti-retroviral therapy (ART) while continuing to support policies and practices to ensure ART beneficiaries achieve and maintain VL suppression, with phased transition to a data-informed, sustainable government and civil society-led response. Technical Assistance will be provided to Kazakhstan, a government that finances the majority of its HIV health investments, to support social health contracting. Each country will focus on influencing the political climate to address policies and programming that ensure that the most at-risk are reached with the most effective prevention and treatment interventions. In Indonesia and Papua New Guinea, the PEPFAR teams will focus on the acceleration of ART coverage in Jakarta and Port Moresby, respectively, and providing comprehensive, HIV/AIDS prevention, care, and treatment services at all PEPFAR sites while assisting the Ministry of Health (MOH) in its roll out of the PEPFAR minimum program requirements (MPRs), including a full transition to TLD. Central to the work going forward will be timely review of data at site level to effectively monitor the cascade to address patient LTFU and retention issues. In Indonesia, the team will work to improve data quality and use at service delivery sites and strengthen partnerships with civil society to improve client retention and monitor program performance. Kazakhstan will work to address policy-related barriers that continue to impede initiation on treatment and to prioritize rapid test and start. The team will also focus on the SUPPORT4HEALTH nurse-led activities to support adherence and retention that will result in increased VL suppression. Kazakhstan will continue addressing the shortage of ARVs through supply chain activities and technical assistance to access TLD at a lower price.

Philippines

During the ROP20 planning process, the PEPFAR interagency made the decision to include the Philippines in the PEPFAR Asia Region Program, as it is experiencing the fastest-growing HIV epidemic in Asia. Funding to address the epidemic was allocated as part of the ROP19 ASAP Incentive Fund. In ROP20, PEPFAR activities in the Philippines will focus on key HIV prevention and treatment service delivery gaps in public and community sites in Metro Manila, Cebu, and Davao, as well as above-site work on supply chain, data, and laboratory systems gaps, policies to further MPRs, and sustainability. In the Philippines, the interagency program will build on the existing USG global health platforms focused on key HIV prevention and treatment service delivery gaps in public and community sites as well as above-site work on supply chain systems gaps, policies, and sustainability. Implementing partners will work above site on laboratory, viral load, data systems, and analysis and support of service delivery in other high-burden regions outside of Luzon, including Regions 7 and 11, where Cebu and Davao are located. The program will support above-site activities.
focusing on treatment quality improvement/quality assurance and will expand military capacity to respond to HIV.

During ROP 2020, the PEPFAR Asia Regional Program will continue to invest in the geographies with the highest HIV burden among the 12 countries. A few notable changes from ROP19 to ROP20 include Thailand’s initial strategy to move toward an above site/technical assistance approach in coordination with the Government of Thailand and ensure the program is maximizing the functionality of KP-centered VL coverage and suppression to achieve the 3rd 95. In Nepal, the PEPFAR team will utilize ambition funding to reach PLHIV who are not yet on treatment and ensure viral load suppression as well as PrEP expansion. Additionally, Cambodia will strengthen social enterprises and KP-led service delivery to support the government of Cambodia’s goal to enroll 10,000 clients on PreP by 2023.

**Funding Summary**

All COP/ROP 2020 funding summarized in the chart below is approved at the agency and account levels as indicated. Funds are to be utilized to achieve the targets and outcomes and to fund implementing partners and Management and Operations costs (U.S. Government Costs of Doing Business) as documented in all PEPFAR systems and summarized in the appendix.

* Pipeline refers to funding allocated in prior years, approved for implementation in FY 2021

GHP-State Funds: Upon the clearance of a FY 2020 PEPFAR GHP-State Congressional Notification (CN), funds will be made available for transfer to agency HQs as indicated in the
above chart. Funds are made available for outlay in FY 2021 at approved COP/ROP 2020 partner budget levels to achieve FY 2021 targets and outcomes as documented in official PEPFAR systems and summarized in the approval memo’s appendix. Upon receipt from S/GAC, agency headquarters will move the funds to the country platform via each agency’s internal process.

**GHP-USAID Funds:** With the receipt of this signed memo, USAID is approved to use GHP-USAID funds, as indicated in the above funding chart. Funds are to be made available for outlay in FY 2021 at approved COP/ROP 2020 partner budget levels to achieve FY 2021 targets and outcomes as documented in official PEPFAR systems and summarized in the approval memo’s appendix. With this approval, GHP-USAID funding may be made available to country teams per USAID internal processes and following agency requirements.

**Applied Pipeline Funds:** With the receipt of this signed memo, respective agencies are approved to use applied pipeline funds as indicated in the above funding chart. Funds are to be made available for outlay in FY 2021 at approved COP/ROP 2020 partner budget levels to achieve FY 2021 targets and outcomes as documented in official PEPFAR systems and summarized in the approval memo’s appendix. Additional or remaining pipeline from previous year’s activities that are not currently captured in the COP/ROP 2020 total budget level and documented within COP/ROP 2020 partner budgets are not to be executed or outlayed without written approval from S/GAC.

**Earmarks:** The OU has planned for programming for FY2020, FY2019 or/or FY2017 funding that it considered to meet a number of earmarks, as indicated in the table below. The amounts programmed during COP may exceed the original controls assigned to the OU. Upon approval of this memo, the amounts below will become the new earmark controls for the OU/Agency. Any changes to the amount of funding programmed for earmark-eligible activities must be approved via an OPU.

**FY 2021 Target Summary**

FY 2020 funds are released and COP/ROP 2020 applied pipeline is approved to achieve the following results in FY 2021. During the ROP 20 implementation period, the interagency team in Laos will submit an Operational Plan Update to accommodate minor adjustments to TX_NEW, TX_CURR, and TX_PVLS targets due to de-duplication errors.

COP 2019 Performance Funds:
All partners must be managed throughout the implementation year as indicated in the COP/ROP guidance. Overall performance including activities tied to ROP19 performance will be reviewed at Q3FY20 to determine if the programs are on track to access all funds at the start of ROP20. This communication will come through the S/GAC Chair and POART process.

Partner Management and Stakeholder Engagement:
Agreements made during COP/ROP discussions, including those regarding geographic focus, targets, budgets, SIMS, use of pipeline, partner implementation and partner management will be monitored and evaluated on a regular basis via both ad hoc check-ins and discussions as well as the joint HQ and country team POART discussions. It is expected that teams closely monitor partner performance and engage with each implementing partner on a regular basis to ensure achievement of targets, outcomes and impact in a manner consistent with this memo, approved SDS, and budgets and targets as finalized in PEPFAR systems. Any partner with EITHER (1) <15% of target achievement at 3 months or (2) less than 40% of target achievement at 6 months must have a complete review of performance data (including trends in performance) and expenditures to date by program area, implement remediation, and conduct intensive follow-up. In the HIV treatment program, most clients are continuing on treatment year after year and current on treatment (TX_CURR) performance should between 98% and 100% of the target. This can be adjusted in country context where HIV treatment services are still scaling up and the treatment new target is greater than 10% of treatment current. OVC programs are also similar in that there are clients continuing services from the previous year; if the IP is less than 80% of their target at Q2 performance review should be triggered. These elements (i.e. review, remediation, and follow-up) should be incorporated into the existing IP work plans. A second quarter of consistently poor performance by the IP should also result in implementation of a documented Performance Improvement Plan (PIP) or Correction Action Plan (CAP), in accordance with implementing agency policy. PIP indicators should reflect the core issue. If the issue is linkage of test positive to treatment the indicator measured should be test positive to new in treatment of greater than 85%. If the issue is retention it should be net new on treatment equal to 90% of new on treatment. After two quarters of intensive oversight and remediation for underperformance, partners should be close to full achievement of targets expected at quarter three. With a third quarter of consistently poor performance by the IP, implementing agencies should notify S/GAC the options the agency is implementing to address partner non-performance: including options for a shift to new partners. The country team should notify the S/GAC Chair and PPM immediately of the improvement plan.

Continued engagement with all stakeholders, including civil society and community members, multilateral partners and bilateral partners, is to continue throughout COP/ROP implementation. Core to this critical engagement is the sharing of and discussion surrounding quarterly results and achievement and findings from community-led monitoring. This continued engagement will ensure all parties’ understanding of Asia Regional’s progress and help identify any strategic changes to be made in order to more efficiently and effectively reach epidemic control.
