PEPFAR has saved 20 million lives and supported several countries to achieve HIV epidemic control

Several PEPFAR-supported countries have achieved HIV epidemic control and reached the UNAIDS 90-90-90 targets

Under the PEPFAR Strategy for Accelerating HIV/AIDS Epidemic Control (2017-2020), several countries have achieved HIV epidemic control and reached or exceeded the UNAIDS 90-90-90 targets.

25.3 million voluntary medical male circumcisions to prevent HIV infection in men and boys

As of September 30, 2020, PEPFAR supported nearly 25.3 million voluntary medical male circumcisions in east and Southern Africa to help protect men and boys from HIV infection.

HIV diagnoses among adolescent girls and young women have declined in all DREAMS areas and by >40% in nearly two-thirds

Since 2015, new HIV diagnoses among adolescent girls and young women have declined in all geographic areas implementing DREAMS. Of these areas, 96% have had a decline of >25%; nearly two-thirds (62%) have shown a decline of >40%.

2.8 million babies born HIV-free

As of September 30, 2020, PEPFAR has enabled 2.8 million babies of mothers living with HIV to be born HIV-free.

17.2 million people on life-saving antiretroviral treatment

As of September 30, 2020, PEPFAR supported life-saving antiretroviral treatment for nearly 17.2 million men, women, and children.

6.7 million orphans, vulnerable children, and their caregivers provided with critical care and support

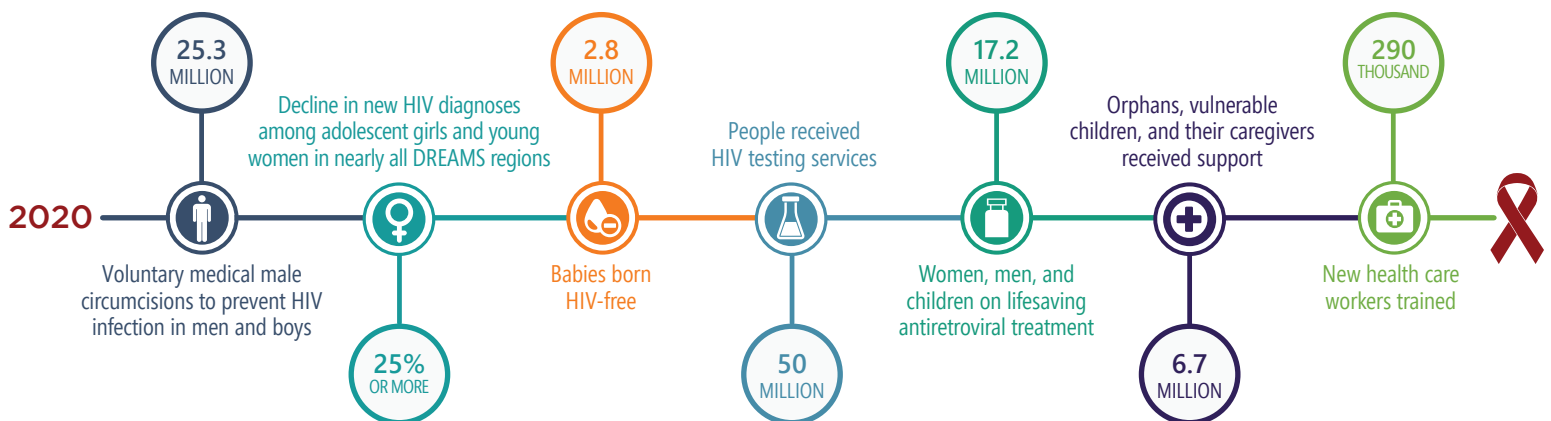

As of September 30, 2020, PEPFAR provided critical care and support for more than 6.7 million orphans, vulnerable children, and their caregivers to mitigate the physical, emotional, and economic impact of HIV/AIDS.

290,000 new health workers trained

As of September 30, 2020, PEPFAR supported training (including pre-service training) for nearly 290,000 new health care workers to deliver HIV and other health services.

50 million people received HIV testing services

PEPFAR supported HIV testing services for nearly 50 million people in Fiscal Year 2020.

PEPFAR is the largest commitment by any nation to address a single disease in history. Managed and overseen by the U.S. Department of State, and supported through the compassion and generosity of the American people, PEPFAR has saved 20 million lives, prevented millions of infections, and helped transform the global AIDS response.
