

MUNICH INTERNATIONAL SCHOOL

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, current unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in late 2020. If a field is not specified, please reach out to the REO listed below for more information.

Munich International School (MIS), founded in 1966 as the first international school in Munich, is an independent, nonprofit, International Baccalaureate (IB) World School. MIS is a community school where around 1,200 students from more than 70 countries learn together on a single, purpose-built campus. The school year commences in late August and ends in late June. Read more on the [Overseas Schools Fact Sheet](#).

MISSION & VISION

MIS inspires the citizens of tomorrow. We send our students toward a future beyond our imagination, toward challenges that require complex, global and bold responses.

ADMISSIONS

The school's admission criteria and procedures can be found at www.mis-munich.de/admissions.
