

INTERNATIONAL SCHOOL OF ICELAND (ISI)

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, current unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in late 2020. If a field is not specified, please reach out to the REO listed below for more information.

The **International School of Iceland** (ISI) offers an international education in English to students who are in the Greater Reykjavik area for a limited period of time, and an international bilingual education (Icelandic-English) for students who are proficient in Icelandic and make Iceland their home. The school is open for students in grades kindergarten (five years old) to grade 10. Read more on the [Overseas Schools Fact Sheet](#).

MISSION & VISION

The mission of ISI is to create an adaptive environment that is academically stimulating and supportive. As an international program with an English and Bilingual Stream, we value multilingualism and encourage international-mindedness. Our vision is to create a dynamic community of confident, creative, and respectful learners.

ADMISSIONS

The school's admission criteria and procedures can be found at www.internationalschool.is/admissions.

IN GENERAL, THE SCHOOL CAN SUPPORT STUDENTS WHOSE LEARNING SUPPORT NEEDS ARE
