

CASABLANCA AMERICAN SCHOOL

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, current unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in late 2020. If a field is not specified, please reach out to the REO listed below for more information.

The [Casablanca American School](#), founded in 1973, is an independent, coeducational day school, which offers a U.S. and International Baccalaureate-oriented education from nursery (three-year-old class) through grade 12. CAS is the first full IB-DP school in North Africa and has been offering the IB-DP diploma for 35 years. The school year is divided into three trimesters that extend from late August through mid-June. Read more on the [Overseas School Fact Sheet](#).

MISSION & VISION

Casablanca American School provides a university preparatory program through a rigorous American and international curriculum in a culturally diverse and open-minded learning community. We nurture the whole child, equipping students with the skills to thrive in a dynamic, globalized world, while fostering their environmental and social consciousness.

ADMISSIONS

The school's admission criteria and procedures can be found at www.cas.ac.ma/admissions/why-cas.

IN GENERAL, THE SCHOOL CAN SUPPORT STUDENTS WHOSE LEARNING SUPPORT NEEDS ARE
