

# AMERICAN INTERNATIONAL SCHOOL OF MOZAMBIQUE

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, current unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in late 2020. If a field is not specified, please reach out to the REO listed below for more information.

The [American International School of Mozambique](#) operates as a private, non-profit, coeducational school for international students with all instruction delivered in the English language. The academic centers (early learning center, primary school, secondary school) are organized around a balance of the academic and social needs of the students. Read more on the [Overseas Schools Fact Sheet](#).

### MISSION & VISION

*AISM pursues excellence by empowering learners to achieve mastery of self, advance their communities, and flourish in an ever-changing world.*
