

# MONTERREY, MEXICO AMERICAN SCHOOL FOUNDATION OF MONTERREY

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

**American School Foundation of Monterrey, A.C. (ASFM)** is a private, secular, non-profit, U.S. accredited, coeducational institution, which offers a college-preparatory educational program from nursery through 12th grade. ASFM serves a diverse population and prepares all students through an innovative, inclusive, and intensive program focused on engaging and enabling students to achieve their individual potential in citizenship, academics, athletics, and the arts. Read more on the [Overseas Schools Fact Sheet](#).
