## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

**Lincoln School** was founded in 1945. The school is registered as a private, nonprofit organization, both in Costa Rica and in the United States. The school year comprises two semesters from August through December and from January through June. Lincoln School is an "Apple Distinguished School," renowned for its innovation, leadership and educational excellence. Read more on the [Overseas Schools Fact Sheet](#).
