

CURACAO INTERNATIONAL SCHOOL OF CURACAO (ISC)

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The International School of Curaçao (ISC) is a K-12, accredited, private, nonprofit, coeducational day school that provides instruction in English. ISC was founded in 1968 and offers a rigorous academic program in order to prepare students who plan to pursue higher learning at colleges and universities around the world. The school year extends from mid-August to mid-June.
