

MUSCAT, OMAN THE AMERICAN INTERNATIONAL SCHOOL OF MUSCAT

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [American International School of Muscat](#) (TAISM) is an independent, coeducational day school that offers an American-based educational program from early childhood (three-year-old) through grade 12 for students of expatriates living in Oman. The school year comprises three trimesters in elementary school and middle school and two semesters in high school, extending from late August to early June. The school weekend is Friday and Saturday. Read more on the [Overseas School Fact Sheet](#).

ADMISSIONS & SPECIAL NEEDS INFORMATION

The school's admission criteria and procedures can be found at www.taism.com/admissions. Special needs information can be found [here](#).
