

# ISLAMABAD, PAKISTAN INTERNATIONAL SCHOOL OF ISLAMABAD

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

**The International School of Islamabad** (ISOI) is a private, coeducational, college-preparatory day school, offering an American curriculum to students of 37 nationalities. Founded in 1965, the school operates on a semester system. Read more on the [Overseas School Fact Sheet](#).

### ADMISSIONS & SPECIAL NEEDS INFORMATION
