

DUSSELDORF, GERMANY

INTERNATIONAL SCHOOL OF DUSSELDORF, EV

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in fall 2022 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

Founded in 1968, the [International School of Düsseldorf](#) (ISD) is a not-for-profit, independent, coeducational day school located in the heart of the international community of Kaiserswerth, a short walk from the Rhine. The school serves the needs of nearly 950 students. Read more on the [Overseas Schools Fact Sheet](#).
