

AMERICAN COOPERATIVE SCHOOL

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

Founded in 1955, [The American Cooperative School](#) (ACS) of La Paz, Bolivia, is a private, nonprofit, non-denominational, coeducational international school offering an exceptional educational program for learners in preschool to grade 12. The school year is divided into two semesters extending from August 19 to December 21 and from January 11 to June 2, 2023. Read more on the [Overseas Schools Fact Sheet](#).

ADMISSIONS & SPECIAL NEEDS INFORMATION

The school's admission criteria and procedures can be found at acslp.org/admissions.
