

COLEGIO JORGE WASHINGTON

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

Colegio Jorge Washington is a private, coeducational day school which offers an educational program from nursery through grade 12 for students of all nationalities. English language instruction begins in prekindergarten as a program of instruction for children with little or no English language capability. The school was founded in 1952. The school year runs from early August until late June.
