

INTERAMERICAN ACADEMY

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

InterAmerican Academy is a culturally diverse learning community that provides students with an intellectually stimulating program, founded in research-based standards in a nurturing environment. The school places students at the center of education and encourages them to be creative individuals, critical thinkers, life-long learners, and socially responsible world citizens. IAA is a private, nonprofit, coeducational day school that provides English language instruction from nursery through grade 12. Read more on the [Overseas Schools Fact Sheet](#).
