

GEORGETOWN, GUYANA GEORGETOWN INTERNATIONAL ACADEMY

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [Georgetown International Academy](#) is a private, coeducational day school that offers an educational program compatible with the United States system for nursery through grade 12. The school has been in operation since 1971. The school year consists of two semesters extending approximately from the middle of August to the end of January and from the end of January to the middle of June.

Read more on the [Overseas Schools Fact Sheet](#).
