

TASHKENT, UZBEKISTAN

TASHKENT INTERNATIONAL SCHOOL (TIS)

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

Tashkent International School (TIS), an International Baccalaureate (IB) World School, is an independent, nonprofit, coeducational, day school from preschool through grade 12. TIS was founded in 1994 by the United Nations Resident Coordinator and the Ambassadors of the USA, UK, German, French and Korean embassies to provide quality education in English for children of the diplomatic corps, international corporations, and local families. The school was founded in 2004. Read more on the [Overseas Schools Fact Sheet](#).
