

# HANOI, VIETNAM

# UNITED NATIONS INTERNATIONAL SCHOOL OF HANOI (UNIS HANOI)

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [United Nations International School of Hanoi](#) (UNIS Hanoi) is a not-for-profit IB World School and one of only two United Nations international schools in the world. Founded in 1988, UNIS Hanoi is a private, co-educational day school that offers an English language program from Early Years (age 3) through Grade 12. UNIS Hanoi was the first international school established in Vietnam and is one of only two United Nations (UN) schools in the world. Read more on the [Overseas Schools Fact Sheet](#).
