

# AMERICAN INTERNATIONAL SCHOOL OF CHENNAI

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The **American International School Chennai** (AISC), founded in 1995, is a nonprofit, independent, coeducational day school. It offers a U.S./international-style educational program in English from the early years (age three) through grade 12 for American and international students who are temporary residents of India. The school year runs from early August to early June. Read more on the [Overseas School Fact Sheet](#).

### ADMISSIONS & SPECIAL NEEDS INFORMATION

The school's admission criteria and procedures can be found at [www.aischennai.org/admissions-overview](http://www.aischennai.org/admissions-overview). We consider student admission on a case-by-case basis. We have tiered levels of support to offer students.
