

ROME, ITALY

# AMERICAN OVERSEAS SCHOOL OF ROME

## ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [American Overseas School of Rome](#) is an independent, coeducational day school for students of all nationalities from prekindergarten through grade 12 and post-graduate year. The school was founded in 1947. The 2021-2022 school year comprises two semesters extending from September through January and from January through June. Read more on the [Overseas School Fact Sheet](#).

## ADMISSIONS & SPECIAL NEEDS INFORMATION
