

CASABLANCA AMERICAN SCHOOL

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [Casablanca American School](#), founded in 1973, is an independent, coeducational day school, which offers a U.S. and International Baccalaureate-oriented education from nursery (three-year-old class) through grade 12. CAS is the first full IB-DP school in North Africa and has been offering the IB-DP diploma for 35 years. The school year is divided into three trimesters that extend from late August through mid-June. Read more on the [Overseas School Fact Sheet](#).

ADMISSIONS & SPECIAL NEEDS INFORMATION

The school's admission criteria and procedures can be found at asd.isg.edu.sa/admissions/application-documents. Special needs information can be found at asd.isg.edu.sa/admissions/entrance-assessments.
