

AMERICAN SCHOOL OF MADRID

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

**NOTE:** School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The [American School of Madrid](#) (ASM), founded in 1961, is an independent, coeducational, K-12 school that provides a comprehensive and rigorous education to some 1,000 students from all over the world. ASM is a college-preparatory school whose mission is to prepare students for entry into best-fit colleges and universities around the world. ASM offers a U.S. high school diploma as well as the International Baccalaureate program, and the ASM program is recognized by the Spanish Ministry of Education. Read more on the [Overseas School Fact Sheet](#).
