

HAMBURG, GERMANY

INTERNATIONAL SCHOOL OF HAMBURG

ASSISTED SCHOOL SPECIAL NEEDS PROFILE

NOTE: School situations can change quickly, particularly as schools face cutbacks to learning support programs due to the pandemic, unrest, and economic uncertainty. For the most current information, work with the REO and school. Information in this document was collected by the Department of State's Office of Overseas Schools directly from the school in spring 2023 and shows the availability of services rather than an assessment of the quality of the services. The profile is intended as a jumping off point for a conversation with the REO and school to understand the best fit for your child. Definitions may vary school to school. If a field is not specified, please reach out to the REO listed below for more information.

The International School of Hamburg (ISH) was founded in 1957 as Germany's very first international school. It remains the only educational institution in Hamburg accredited by the Council of International Schools and the New England Association of Schools and Colleges. ISH is an independent, coeducational, state-recognized, supplementary day school that serves students aged three (preschool/kindergarten) through grade 12. The school year comprises two semesters extending from late August to late June. Read more on the [Overseas Schools Fact Sheet](#).

ADMISSIONS & SPECIAL NEEDS INFORMATION

The school's admission criteria and procedures can be found at www.ishamburg.org/admissions/welcome. Special needs information can be found [here](#).
