

CARIBBEAN PUBLIC HEALTH AGENCY (CARPHA) & MEMBER STATES

Technical Areas Proposed for U.S. Global Health Security Investments

National Laboratory System

Surveillance

Human Resources

Risk Communications & Community Engagement

Points of Entry

Zoonotic Disease

The U.S. has partnered with CARPHA & Member States on Global Health Security (GHS) since 2015

Member States routinely submit State Party Annual Reports (SPARs) to the World Health Organization

The U.S. Government (USG) GHS Program with CARPHA & Member States

The U.S. partners with CARPHA & Member States to strengthen capacities to prevent, detect, and respond to infectious disease threats. Areas of collaboration include strengthening national laboratory systems, disease surveillance, human resources, risk communications and community engagement, points of entry, and zoonotic disease detection and response.

U.S. investments support and build on those made by CARPHA and its member states, in coordination with other partners and stakeholders. Current and planned GHS activities reflect national priorities, utilize the best available data, and align with the country context and the health system.
