

HAITI

Scores for Select Global Health Security Technical Areas

WHO 2023
SPAR Scores*

* The World Health Organization (WHO) States Parties Annual Report (SPAR) is a publicly available self-assessment by the government of its global health security capacities. Scores presented here are based on a 5-point scale. Biosafety & Biosecurity score presented separately from National Laboratory System score. Antimicrobial Resistance uses [2021 Global Health Security Index](#) score as it is not included in the SPAR.

The U.S. has partnered with Haiti on Global Health Security (GHS) since 2023

Haiti conducted a Joint External Evaluation (JEE) in 2019

The U.S. Government (USG) GHS Program in Haiti

The U.S. partners with the Government of Haiti to strengthen capacities to prevent, detect, and respond to infectious disease threats.

USG's Global Health Security investments also support stronger, more resilient health systems, including training human and animal health workers, strengthening laboratories, and bolstering surveillance systems. These investments support and build on those made by the Government of Haiti, in coordination with other partners and stakeholders.

Current and planned GHS activities reflect national priorities, build on best available data, and align with the country context and the health system.
