

# ANGOLA

## Selected Technical Areas Endorsed by the Government of Angola for U.S. Global Health Security Investments

The U.S. has partnered with Angola on Health Security (GHS) since 2024

First Joint External Evaluation (JEE) conducted in 2019 and a follow-up was done in 2023.

### The U.S. Government (USG) GHS Program in Angola

The U.S. Government partners with the Government of Angola to strengthen capacities to prevent, detect, and respond to infectious disease threats. Areas of collaboration may include zoonotic disease detection and response, national laboratory systems, disease surveillance, risk communication & community engagement, infection prevention & control, and/or human resources.

U.S. investments support and build on those made by the Government of Angola in coordination with other partners and stakeholders. Current and planned GHS activities reflect national priorities, utilize the best available data, and align with the country context and the health system.
